

## HAYWOOD NOT GUILTY SAYS THE JURY

AFTER DELIBERATING FOR TWENTY-ONE LONG, TEDIOUS HOURS AT BOISE.

### VERDICT WAS A SURPRISE

As the General Impression Was That There Would be a Disagreement or Conviction.

Boise, Ida., July 29.—William D. Haywood was summoned into the courtroom on Sunday morning to hear the report of the jury which had for long hours held his fate in its hands, and a few moments later he walked out a free man, thus ending the trial of a case that has for weeks and week occupied the attention of the entire country. As had been predicted since the evidence of Harry Orchard was sifted down, the murder of ex-Governor Steunenberg will now have to be laid at the door of somebody other than the leader of the Western Federation of Miners.

Inquiry among the jurors after their dismissal revealed some of the elements entering into their decision. Samuel D. Gilman, the last man to be sworn over to the defense, declared that a majority of the men seemed convinced that the general tone of the court's instructions indicated that the defendant should be freed. Finley McBean, who voted consistently for ac-

quittal from the first, declared that the judge's instructions seemed to settle all doubt as to the course which he should take.

It was also freely predicted that in the event of Haywood's acquittal the state would abandon the prosecution of his associates, Charles H. Moyer, president of the Federation and George A. Pettibone of Denver. Statements from counsel and from Gov. Gooding dispel this view of the situation.

Governor Gooding said: "The verdict is a great surprise to me and I believe to all citizens of Idaho who have heard or read the evidence in the case. I have done my duty. I have no regret as to any action I have taken and my conscience is clear. As long as God gives me strength I shall continue my efforts for government by law and for organized society. The state will continue a vigorous prosecution of Moyer and Pettibone and Adams and of Simpkins when apprehended. There will be neither hesitation or retreat."

Application will be made to Judge Wood, to admit Moyer and Pettibone to bail, and it is said that in the case of Moyer, against whom the state is admitted to have its weakest case, a favorable consideration would not be unexpected.

Not the least interesting of the comments made upon the verdict was that of Harry Orchard. When told at the state penitentiary that Haywood had been acquitted, Orchard said: "Well I have done my duty. I have told the truth. I could do no more. I am ready to take the punishment that may be meted out to me for my crimes and the sooner it comes the better."

It was after being out for 21 hours that the jury, which at first had been divided eight to four and then seemed deadlocked at ten to two, finally came to an agreement shortly after the first faint streaks of day showed above the hills. The weary, snow-bearded old bailiff who had kept an all-night vigil before the door of the jury room was startled into action by an imperative knock from within. Events moved rapidly after this, and when the principal actors in the trial had been gathered into the courtroom at a few moments before 8 o'clock the white envelope handed by the foreman to the judge was torn open and the verdict read.

It came as an electric thrill to the

prisoner, to his counsel, to the attorneys for the state and to the small group of heavy-eyed newspaper men and court officials who had been summoned from beds but lately sought or from offices where sleepless waiting had marked the night.

Tears welled to the eyes of the man who, during the 80 days of his trial, had sat with stolid indifference upon his every feature—at last the icy armor he had thrown about himself with the first day of jury selection had been pierced, and whatever of pent-up feeling had been contained within was loosed. Haywood's attorneys were fairly lifted from their seats, and Judge Wood made no effort to restrain them as they surrounded him to shake his hands and shout aloud their congratulations. James H. Hawley, leading counsel for the state, and O. N. Vandurn, the prosecuting attorney of (Continued on page 8, 5th col.)

### WM. D. HAYWOOD

Will be Next Socialist Candidate for President, Say New York Representatives.

New York, July 29.—If Wm. D. Haywood is not the next Socialist candidate for president, New York's representatives of the party will be much surprised. They say his case has brought the cause of socialism much to the public attention; that he is their party's logical nominee; that they are sure organized labor generally will strongly support him, and they think he will make the strongest run of any socialist candidate in the field.

New York socialists were the first to go to the financial assistance of the accused miners' leader, contributing \$25,000 of the \$100,000 fund raised for the defense.

### THE MILITARY FORCES END AN UPRISING

Seoul, Korea, July 29.—The strong hand of the Japanese military forces has finally put an end to the uprising in Seoul. Considerable damage was done in Saturday night's rioting. Outside of Seoul it is rumored there has been serious disturbances.

### SOCIALISTS

Insisted on Carrying Red Flags and Police Break Up Parade in a Michigan Town.

Hancock, Mich., July 29.—A Socialist parade was broken up by the police Sunday because many of the marchers carried red flags in defiance of a recent enacted city ordinance. When the policemen attempted to arrest those who were carrying red flags the color-bearers resisted, and were aided by many of the other marchers. Clubs were used freely and many fist fights occurred as a side issue. No one was severely hurt. Thirteen marchers, including one woman, were arrested. Notice had been given by the police that any attempt to carry red flags would be prohibited, as it was feared that such a demonstration at this time might cause violence in connection with the iron miners' strike.

### MANY OF THE GUESTS HAVE CLOSE CALLS IN A HOTEL FIRE

New York, July 29.—Long Beach hotel at Long Beach, burned early today, together with a half dozen out-lages. The total loss is \$1,000,000. Buildings were dynamited to stay the flames. One person is missing. Six were overcome by smoke in the hotel. Many guests had narrow escapes from death and they lost all luggage.

### PARDON

Refused by Young Girl Unless Granted Also to Old Woman Who Had Betried Her.

Atlanta, Ga., July 29.—Because of her devotion to a woman who had been as a mother to her, Cornelia Rake, a pretty 17-year-old girl, refused a pardon that would free her from the Georgia chain gang, unless aged Mrs. Reynolds was also freed.

The girl and Mrs. Reynolds came here from Tampa, Fla., where the old lady had some property, which she sold.

The pair soon found themselves penniless here and were arrested as vagrants. Despite the pitiful and truthful story which they told they were sentenced to eight months on the chain gang.

A city missionary looked into the case, found the wrong that had been done, and secured a pardon for the girl. When told she was free, Miss Rake absolutely refused to leave the convict camp without Mrs. Reynolds.

"She has been a mother to me, and I will stay here and die with her if need be," said the girl.

The case was called to the attention of Governor Hoke Smith, and a pardon will be given the aged woman too.

## CONEY ISLAND WAS RUINED BY FIERCE FIRE

WHICH CAUSED A DAMAGE OF TWO HUNDRED THOUSAND DOLLARS.

### MAKE A RUSH FOR LIFE

Many Are Imperilled, But No Casualties Have Been Reported from the Conflagration.

New York, July 29.—The pleasure-seeking people of the metropolis are mourning the ruin of gay Coney Island resort through the visitation of a disastrous fire, which wiped out the principal part of this noted place, including Tilyou's Steeplechase park and more than a dozen of the hotels. Greater destruction was prevented by a shift of the wind. By some fortunate chance but three persons were injured, one of them a fireman. This is Coney's fourth fire in the past few years. The loss is variously estimated.

The alarm of fire woke up dozing Coney Island with a start, and in a few minutes Surf avenue was jammed with excited freaks and frolickers, chorus girls, snake charmers, animal trainers, performers, amusement employees—all the miscellaneous population of the island, in fact. Clothed in a state of terror and little else, thousands fled through the streets, while the roar of the flames could be heard from one end of the island to the other. It seemed as though nothing could save the island from destruction, and hundreds of the inhabitants began to remove their household effects into the streets. The Steeplechase park hotel, one of the first to burn, housed a hundred people, all of whom got safely out.

Inside the burning park all was excitement and confusion among the two score employees who slept in a house near the entrance. Carrying grips and luggage, they scurried to the street, and while the exodus was in progress a cry went up that San Dora, the armless and legless man, who eats a dozen meals a day just to show that he can do it without the aid of arms and legs, was missing. Seizing a basket, two employees hurried back and found San Dora wiggling along the floor toward the door. "The wonder" was piled into a basket and, though the flames and smoke threatened to engulf his rescuers, he was carried to a hotel, where he remarked that his escape had been effected "without the loss of life or limb."

One of the first to escape from his lodging place was Francesco, the fire-eater. When things are calm and placid Francesco eats fire and breathes it forth again, all for a livelihood. Sometimes he is advertised to bathe in tongues of flame. But this conflagration was too much for even Francesco, and he wisely gave way to the firemen.

The fire put many small dance halls and bathing pavilions out of business, and many sandwich men and frankfurter purveyors who stored their stands and carts in nooks and crannies between buildings lost everything.

Arthur Lee, manager of Steeplechase park, speaking for Mr. Tilyou, said that the loss on the park, which was completely destroyed, would reach \$1,000,000 and there was no insurance. The hotels destroyed were small, and the property loss on them will not reach much over \$100,000. Estimates of the total loss made by the show people are somewhat in excess of the figures set by the police and fire departments. The fire chief who directed the fight said that "over \$200,000" would be a conservative estimate of the damage.

### FURIOUS FIGHTING IS NOW IN PROGRESS

Tangier, July 29.—Furious fighting is in progress between the forces of Raisuli, the bandit, and government troops sent to rescue Kaid Maclean, the sultan's military adviser, who is held a prisoner by Raisuli. Prisoners captured during the battle are constantly arriving here. News of Maclean is unobtainable.

### AERIAL WARSHIP IS A SUCCESS

Berlin, July 29.—Emperor William's palace was destroyed, figuratively, today by a bomb dropped from the sky. A similar fate befell many of the magnificent business blocks lining the famous Unter den Linden. A new military airship, capable of carrying quick firing guns and a crew

of six men irrespective of wind, was the instrument of destruction. A paper bomb was dropped into the palace, theoretically destroying it. Similar bombs wrecked other places. After performing numerous evolutions the aerial warship sailed away from the city.

### DUCHESS IS VERY ILL

London, July 29.—Alarmed by a sudden turn for the worse in the illness of the Duchess of Manchester, her husband and father, Eugene Viennet, man of Cincinnati, are hurrying to her side. She is in a private hospital here. Physicians believe that an operation will be necessary.

## FORMER MAYOR SURRENDERS TO KENTON SHERIFF

THOS. B. BLACK CONFESSES HE HAS EMBEZZLED SUM OF \$28,000.

### BY MEANS OF FORGED PAPERS

Ex-Mayor Routed Officers Out of Bed at Kenton Monday to Give Himself Up.

Kenton, O., July 29.—Confessing that by forgery, he had embezzled \$28,000 of estates managed by him, Attorney Thomas B. Black, former mayor and present chairman of the Hardin County Republican Executive committee, gave himself up to Sheriff Williams today, and is in jail. He came to the sheriff's residence at 5 this morning and routed the sheriff from bed. "You've heard rumors," he said. "They're true. I've come to surrender." It is alleged that the embezzlement was by means of forged mortgages.

## MAGILLS JAILED AT CLINTON, ILL., FOR A MURDER

SPECIAL GRAND JURY CALLED ON MONDAY TO HEAR THE TESTIMONY.

### STATE CLAIMS STRONG CASE

Defendants Declare They Can Easily Prove Their Innocence—A Pothetic Meeting.

Clinton, Ill., July 29.—That they have been crucified on the cross of love, made the victims of jealous hypocrites yet are innocent as babies of the crime of killing Mrs. "Pet" Magill, is claimed by Fred Magill and his wife, now in jail at Clinton and waiting to be called before the special grand jury which assembles today.

The former banker and his stenographer bride have been kept in separate cells, but they have been allowed to receive many visitors and since their arrival in Clinton Sunday have been almost hourly in conference with their attorney.

W. W. Graham, and his wife, father and mother of Faye reached the jail a few hours after the arrival of Sheriff Campbell's party.

The meeting between mother and daughter was pathetic. "My poor, dear baby girl," exclaimed the mother, tottering and sick with grief and worry. Faye wiped the tears from her mother's eyes, tried to comfort her and assured her all would be right in the end. Magill and his wife have been free to assert their innocence and though they expect an indictment are confident their innocence will be proven. Those who have talked with the two declare Faye has the lion's share of courage and that Magill's apparent composure in the face of a finger of scorn pointed by many who have known him since childhood is due to the support and encouragement given him by his slender girl wife. Magill says: "I have told only one story about the whole affair. I am innocent. Mrs. Magill killed herself because she was tired of interference on the part of relatives and worried over ill-health. It can be proven a hundred ways." Without the least hesitation Faye declares the only thing they have done wrong was to marry so quickly.

"I can easily prove that I was not

at the Magill home during the night Mrs. Magill died."

The State claims today that its case grows stronger every hour. The grand jury convening today will require two or three days in which to hear all the witnesses.

Philippine Assembly.

Washington, July 29.—President Roosevelt's promise to the Filipinos, made through Secretary Taft at Manila Aug. 11, 1905, that they should have a parliament of their own on condition that complete peace be maintained in the islands for two years, will be redeemed Tuesday when the first general election for a Philippine congress is to be held. The new assembly, or legislature, will consist of two houses, to be known as the Philippine commission and the Philippine assembly.

### THE SENTENCE

Against the Standard For Violating Interstate Law Will Soon Be Known.

Chicago, July 29.—Sentence against the Standard Oil company for violating the interstate commerce law by using illegal railroad rates will be pronounced in the United States district court here Saturday by Judge Landis. The sentence may be the most gigantic penalty ever adjudged against any corporation or group of corporations in the world. Conviction was obtained on 1,462 violations of the law, and upon this total the maximum fines aggregate \$29,240,000. Whether Judge Landis does or does not assess fines to the highest limit possible, an appeal to a higher court is expected to be made by the Standard Oil company. It is not at all improbable that the comment made by Judge Landis in entering his final order in the celebrated case may prove of even greater public interest than the size of the fine imposed, or his recent action in bringing before the bar of the court from a thousand miles away, to be personally catechized from the bench, John D. Rockefeller.

### FIREMEN

Injured in a Big Fire at Memphis, Tenn.—One Killed by Falling From a Ladder.

Memphis, Tenn., July 29.—In a fire originating on the eleventh floor of the Memphis Cold Storage company's building, which was in the course of erection, one fireman lost his life and two others were seriously injured. The loss approximates \$600,000. The dead: Joseph Hisey, fireman, killed by falling from a ladder. Injured: Lieutenant John Curry, Company No. 1, injured by falling walls, serious; Pipe-man William M. Kelley, Company No. 9, seriously injured by falling walls.

Militiaman Killed.

Calumet, Mich., July 29.—Jhalmer Luokkola, a private in Company G of Houghton, was shot and killed just as three Copper county militia companies were about to start a sham battle. The bullet, it is said, came from without the ranks, and it is believed that a deliberate attempt was made by outsiders to kill one of the soldiers.

King Peter in Danger.

London, July 29.—The Vienna correspondent of a news agency here says that dispatches received from the frontier report an attempt against the life of King Peter of Serbia. The royal train, according to the dispatches, was diverted at Palanka, a station in southern Hungary, through the malicious alteration of the railway points. The guard hastily applied the brakes, but not before a slight collision occurred. Nobody was seriously hurt.

### LOOKING TO VIRGINIA FOR THE NEXT CLASH

Washington, July 29.—Officials of the department of justice are looking anxiously toward Virginia, where appearance indicate the probability of a struggle between federal Judge Pritchard and state officials similar to the serious differences just compromised in North Carolina. Judge Pritchard has suspended the enforcement of the new railway rate law in Virginia by enjoining the publication of the enactment passed by the railway commission.

Governor Swanson is reported to have proclaimed that if the railroad commission saw fit to defy Judge Pritchard's injunction he will give that body all the support within his power.

A revolutionary movement has broken out in one of the Argentine provinces bordering on Brazil. The Brazilian government has sent troops to the frontier in order to prevent a violation of neutrality.

Vice President Charles W. Fairbanks arrived at Boston from the west and proceeded soon afterward to join his family at Danvers, where they are spending the summer.

Dispatches from Mineral Wells, Texas, announce the death there of Mrs. Newton C. Blanchard, wife of the governor of Louisiana.

## NINETEEN PEOPLE PERISH AND THIRTY OTHERS HURT IN A TENEMENT HOUSE FIRE

New York Police Attribute Monday's Blaze to Black Hand as They Do Big Fire of Sunday on Coney Island

---Financial Loss is Heavy.

(United Press Bulletin.) New York, July 29.—The Black Hand is almost certainly responsible for the tenement house fire in which 19 persons lost their lives and about 30 more were injured early today. To the same organization the police attribute yesterday's fire at Coney Island, which swept a 35 acre tract in the heart of the resort, licking up Steeplechase park and other property. The loss is estimated at \$1,500,000.

Today's fire was in a six story tenement at Chrystie street. It is possible that the list of dead may exceed 19, the police fearing more bodies may be in the ruins. The blaze was characterized by a terrific panic in which men crazed with fear, trampled on women and children, and pushed several from the ladders and fire escapes. The fire is supposed to have been caused by a bomb explosion. The dead and injured are nearly all Italians. Italian detectives report positively that the fire was incendiary. Many of the tenants of the building have been terrorized by the Black Hand. In the Coney Island fire two are missing and are probably dead. A large number of persons were injured, many seriously and two fatally.

## YOUNG GIRL MISSING MAY HAVE ELOPED

Where is Bernice Cripps, the adopted daughter of Mr. and Mrs. S. E. Cripps, of 79 Flory avenue?

She has mysteriously disappeared and her foster parents have not the slightest idea as to her whereabouts.

The young woman is aged 17 years and is the child of William Orr, who resided in Columbus 10 years ago, when the girl was adopted. She had lived at the Cripps home during this time, and was reared as one of their own children and given the same care and attention.

On Sunday morning she disappeared, and she is not known by the Cripps family, but Mrs. Cripps says she thinks she still lives in Columbus.

Mrs. Cripps also says that Bernice must have gone away with some one who had money, as she did not have a cent, and not a penny of the money in the house is now missing.

She had several young men admirers and it may develop into a case of elopement, although these young men were never denied the privilege of calling at the home.

The family was gone only about two hours but when they returned, found a note from Bernice which read about as follows: "My father has come for me and I have gone with him. You will see me when I return."

The residence of her father, Wm. Orr, is not known by the Cripps family, but Mrs. Cripps says she thinks he still lives in Columbus.

Mrs. Cripps also says that Bernice must have gone away with some one who had money, as she did not have a cent, and not a penny of the money in the house is now missing.

She had several young men admirers and it may develop into a case of elopement, although these young men were never denied the privilege of calling at the home.

### THE COMMISSION TO MAKE DECISION ON RATE QUESTION

Richmond, Va., July 29.—In an interview Governor Swanson of Virginia gives his position regarding the railroad rate situation in this state.

The governor says the case in Virginia is different from that in North Carolina, as no law establishing rates in this state has yet been perfected, and that the paramount authority for fixing rates is vested in the corporation commission, which Judge Pritchard recently enjoined from publishing its order for a uniform two-cent rate. The governor says that under Judge Pritchard's injunction the commission was prevented from "perfecting the third act necessary to fixing the rate" (publication thereof), and that thus there is no two-cent law in Virginia today. Under the constitution, said Governor Swanson, in order for the commission to fix a rate it must take three necessary steps, viz: Give notice to the transportation companies to appear; second, give a hearing and enter an order; third, publish the order four weeks before it can take effect.

### A YOUNG BOY KILLS LIVERYMAN

Lebanon, Ind., July 29.—Nat C. Titus, a liveryman and one of Lebanon's best-known business men, struck on the head with a rock by Oscar Proctor, 17, received a wound from which he died. The boy hurled the stone at the liveryman, it is alleged, because he became angered at an extra charge of 15 cents made for the hire of a horse and buggy. The young man is held on a charge of murder.

The Russian police unearthed a plot that had for its object the assassination of the minister of war, General Roediger.

Mrs. Margaret Carpenter of Brooklyn has just celebrated her one hundred and first birthday. She is in excellent health.

Indianapolis, Ind., July 29.—Mrs. Lucinda Morton, wife of Oliver P. Morton, Indiana war governor, is dead at her home in this city. She was 82 years old. She has been in feeble health for some time. The aged woman had many times expressed the wish that she live until the monument to the state of Indiana erected to the honor of her illustrious husband was unveiled. The statue was unveiled on last Tuesday, but though alive, she was unable to witness the exercises on account of sickness. No arrangements for the funeral have been made.

### THREE ARE KILLED FOUR FATALLY WURT

Brockton, Mass., July 29.—A locomotive with an empty passenger car attached dashed into the rear end of a Cape freight train today at Campell, killing three men and injuring four others, all of whom will probably die.

# Prince Eui Wha, The Korean Adonis

WIDE AWAKE ORIENTALIST WHO MAY BE CROWNED  
EMPEROR OF THE HERMIT KINGDOM.

Lively Career of a Youth Who Was an American College  
Student With Eighty-seven Suits of Yankee Clothes and  
a Belflowered Vest For Each—Hero of Three Ro-  
mances With American Maidens—How Coney  
Island Took Him For a Good Thing.  
His Prophetic Words.

By ROBERTUS LOVE.

UNLESS Japan shall determine to gobble up Korea and gulp her down by annexation it is probable that a young man who until two years ago was an American college student will be crowned emperor of the ancient Land of the Morning Calm.

This interesting personage, well known in the United States, is Prince Eui Wha. He is the son of the Emperor Yi Hui, who has just abdicated, and Lady Om, the old emperor's chief concubine. The son of Yi Hui and the murdered Empress M., who as crown prince has ascended the throne from which his father stepped down, is said to be a weakling, incapable of ruling intelligently. On the other hand, young Eui Wha, despite certain escapades while in the United States, has shown that he possesses a mind capable of looking at matters almost from the western viewpoint. Conditions in Korea are so chaotic that one has no warrant for predicting what may happen, but it is generally understood that if the Japanese should desire Prince Eui Wha to reign it will be just as easy to get the new

graduate of the Ohio Wesleyan university at Delaware, O., who is entitled to sneer and remark:

"Huh! I liked that chap, and I can do it again!"

## Soaked in Western Civilization.

For verily the career of Prince Eui Wha in the land of Uncle Sam was as the going up of a skyrocket on a Fourth of July night and even as the coming down thereof.

Eui Wha came over to this country an innocent, uninitiated, unsophisticated oriental. He matriculated in the mighty school of occidental experience. When he returned to his native peninsula, he was soaked in western civilization from tip to toe. He could talk both English and United States. He had eighty-seven suits of American clothes, with a belflowered vest for every suit, and he had experienced love suits and one considerable lawsuit. His imperial highness left his divided heart in three American maidens' keeping. At Coney Island he left a blaze of high flying glory that still scintillates between the towers of Luna park and the minarets of Dreamland.

to the arena a hard fisted farmer youth who objected to the attentions which this oriental personage was bestowing upon the fair co-eds. Perhaps the prince was making eyes at the farm lad's girl. At any rate, there was a rixup, the young American knocked the young imperial highness down and out, and the result was an international complication. The Korean diplomats at Washington requested an investigation. Our state department asked the governor of Ohio how it happened. There was an apologetic explanation, but the prince was taken away from Wesleyan and placed in Roanoke college at Salem, Va.

But Eui Wha remained at Wesleyan long enough to fall in love with a fair co-ed, Miss Angie Graham of Wheeling, W. Va. The prince made several visits to the home of Miss Graham, whose father is a clergyman. Rumors of the couple's engagement were published from time to time, but never verified.

## Romance No. 2.

Still another Cupid case occurred during the prince's Ohio college days. There came to the town of Delaware a beautiful girl who obtained employment in a millinery store. She tried on hats and looked lovely in them. Every hat was becoming to Miss Clara Bull, because she was pretty enough to make the ugliest bonnet a dream. So thought the prince, who passed by the store one day and saw Miss Bull. An introduction was arranged, and Eui Wha saw his Clara every day. Presently, it is said, a diamond ring blossomed on one of the fair one's fingers. There were flowers and candies and theater parties for her delectation.

Miss Bull at last returned to her home in Cincinnati. The prince gave orders to his secretary:

"Prepare for my departure at once. I am going to Cincinnati."

Arriving there the prince sent his secretary to the Bull residence. The secretary bowed a low Korean bow, or salaam, and said:

"His imperial highness desires to know if you will do him the goodness of according him the supreme pleasure of an interview."

"Why doesn't he come himself?" merrily asked Miss Bull.

When John Alden went to Frisella Mullins as an emissary from Miles Standish, something very similar happened, only reversed. "Why don't you speak for yourself, John?" So Prince Eui Wha himself went and pressed his suit. But Miss Bull preferred Ohio to Korea. So faded romance No. 2.

After Eui Wha went to the Virginia college romance No. 3 came to soothe his wounded affections. In fact, it appeared that this Korean imperial heart was supplied in triplicate. Mountain Lake park is a pretty resort in western Maryland. It is in such a quiet place that the prince's watchful guardians felt no harm could come to him there. Thither went he for an outing. He had both outing and in-lining—the third in-lining. The dark blue eyes and light brown hair of Miss Mary Buttles bewitched the Korean Adonis. She was an Ohio girl, from Columbus, and just seventeen. Eui Wha beheld her in the hotel dining room and was dazzled.

"Arrange an introduction," he commanded of his secretary.

Miss Buttles was agreeable. What girl wouldn't be willing to meet a possible emperor if the imperial possibility were young, good looking, well dressed, well behaved and fancy free, even though not exactly heart whole? But Miss Buttles treated Eui Wha just as she would treat a young American. She was not dazzled by the imperial glamour.

"I'm going to climb the mountain," she remarked.

"Oh, I hate walking!" exclaimed the prince. In Korea all great personages are carried everywhere in sedan chairs.

"Very well," replied the athletic maiden; "you can stay at the hotel!"

## Got Sore Feet; Never Cold Ones.

Up the mountain she went, the prince trudging after. He declared that she was the first woman who ever forced him to do a thing he hated, but it made him like her better. There were many mountain climbs during the outing, the prince always attendant upon the princess. Eui Wha got sore feet, but never got cold feet. He gave an elaborate dinner in honor of Miss Buttles just before she departed for home. Then he visited her at Columbus, but No. 3 was not inclined to risk the perils of the life that falls to a Korean empress.

It was while Eui Wha was a student in Virginia that he made his memorable visit to New York. His imperial father made him an allowance of \$4,000 a year during his stay in America. That was enough for Ohio or Virginia, but scarcely a suggestion of sufficiency for New York. The prince and his secretary arrived in the metropolis unannounced. New York quickly discovered that an imperial possibility was present. Prices for everything soared sky high.

The prince went to Coney Island while going through the "seeing New York" process. He spent days and days there; also nights. Coney looked upon him as a good thing. The barkers, the grafters, the card sharks, even the peanut vendors, took unwarranted toll of the imperial purse. Then there was of course an unlimited supply of the prince's chief delight—the unveiled American woman. Blonded beauties, chorus girls in tights, beach sprites in bathing suits, all attracted the prince's attention and subtracted his coin. He gave suppers to berries of blonds and bunches of brunettes. Champagne went down, but the price of it went up. As a consequence the prince had to borrow. He gave his notes. At the end of the outing he had spent his allowance for ten years in advance. One firm in New York sned him for

\$30,000 on his notes and got judgment. The money was paid, of course, for kings can find the wherewithal. At the Korean legation in Washington it was explained this way:

"Oh, his imperial highness has merely exceeded his allowance a little—that's all!"

For a period Eui Wha was entertained at the legation, where he received advice calculated to do him good.

## Prophetic Utterance.

About that time—it was in the spring of 1904—he gave out an interview in which he uttered these prophetic words, proving that wisdom may dwell even in the mind of a youth who has done Coney Island and been done:

"For Korea I can only say that this war between Japan and Russia probably will change her whole future history. I do not even know that she will be an empire hereafter. Personally I side with Japan in the conflict. I think most of the Koreans are decidedly sympathetic in that direction. Thus, of course, we hope for a Japanese victory. In that event perhaps Korea will be allowed to remain an empire as before."

Perhaps—even yet.

Perhaps this young man, if elevated to the throne, may maintain Korea as an empire, for in that same interview he uttered these worthy sentiments:

"If by any possibility I should ever ascend the throne, I should start a thoroughly new regime. There would be more western civilization introduced into Korea. We should have reforms in every department of the government. The spread of education would be the great principle upon which the government would concentrate its energies. Korea needs an intellectual awakening."

And that interview concluded with these remarks, which Japan surely should not forget:

"I admire very much the Japanese form of government. I believe it is the system which would work with success in Korea. The more I study the more there is to learn, I find, and perhaps some day I shall make it my mission to go back to Korea as the missionary of education, if not to be the ruler of the palace at Seoul."

From all this we must conclude that Prince Eui Wha of Korea learned much in America. His reputed love affairs and the Coney Island episode were merely incidental. It was only natural for him to fall in love with our American girls. Most of us do it once or oftener during life. This oriental-ist showed excellent taste. It is even to be regretted that he could not take with him to share his reign—in the event of his elevation—an American empress who could teach Korean women and Korean men many things calculated to advance the ancient nation and could help to hold down the tottering throne and steady it.

## HAIL TO KNIFE GRINDERS!

Civil Service Will Attract Them to \$900 Government Jobs.

Hail to the knife grinder! Thousands of his tribe will soon march upon Washington, all imbued with the lofty ambition to hold down a government "snap." The great assemblage, which will make Washington its Mecca for an indefinite period, bids fair to produce a tie-up in the scissors grinding industry throughout the United States, says the Washington Post.

Like a bolt from a clear sky, the first intimation of this convolve of horny handed souls came in the form of an announcement issued by the civil service commission that eligibles for the "office" of knife grinder would be examined and certified for immediate service in the government printing office and other branches of department work where the deftness and skill of the knife grinder are necessary in order that the machinery may run smooth.

There are features that should attract and please applicants. No education is necessary. No excruciating mental or physical tests are required. No long political pull is needed.

Already there is activity among the Washington grinders. It is not yet made public how many appointments will be made from the list of applicants. The job will pay \$900 a year.

## For Trapping Thugs.

A phonographic device that will call the police by telephone adds a new hazard to the ever increasing dangers of the burglar's profession, says the Baltimore American. When an attempt is made to force a window or door with which the proper connections have been made, an electric current operates a phonograph in the garret. The machine calls up central and asks for the police station. The phonograph then informs the officers of the robbery, giving street and number, and repeats this information as long as the receiver is down. Meantime the intruder, all unconscious that an alarm has been rung in, virtually walks into a trap and if the call is promptly responded to is soon in the lockup.

## May Have Shoes of Whaleskin.

Whaleskin shoes may be the next fad. Men who have been experimenting with whaleskin for commercial uses are meeting a fair degree of success, it is said. It would be odd if the plentiful kid and calf were not enough to supply the whole world and the scarce whale had to be brought to civilization's rescue, says the New York Press. The "leather" of the whale is thin and rough and will take color readily. Not only shoes, but long gloves, will be made of whaleskin, say the prophets. Considering the famine in the glove market since the short sleeve fad started, it seems a pity this use for old "there she blows!" wasn't discovered before.

## OHIO FARMERS

Tell Tax Commission What Taxation Reform They Want.

## MANY CHANGES DEMANDED

Most of the Representatives of Agricultural Interests Favor a Constitutional Amendment.

The June meeting of the Tax Commission of Ohio was something of a "farmers' day." The representatives of the great agricultural interests of the state were invited to appear before the commission and discuss taxation. The meeting was the most successful of all the good ones held so far, and the farmers showed that they understood the big subject. From time to time the discussions of the agriculturists will be run in these columns.

F. A. Derthick of Mantua, Master of the Ohio State Grange, said:

It is conceded that agriculture bears both a reality and personality tax, because the land and personality can all be gotten, while the city tax is principally a reality tax.

I like the New York plan. Each taxpayer is given a pamphlet containing the valuation and assessment of every other taxpayer in his zone. From the direct tax is learned that John Jones lives at No. Sixteen in street. No one goes there to see John Jones, or calls him up. It is assumed that if he lives in that environment with all the privileges, he is worth at least \$50,000. They send him this notice: "Dear Sir—You are assessed on a valuation of \$50,000 and your assessment is so much. If not satisfactory call and see us." If nothing is heard from him they move up on the valuation and he protests. The tax rate in New York city is 1.47 against 3 per cent in Columbus and 3.15 in Cleveland.

To avoid double taxation in mortgages Minnesota enacted a mortgage record tax which went into effect May 1, 1906. The first day about \$10,000 was collected from the registration fees of one-fourth of 1 per cent in one county alone, while for the entire previous year less than \$5,000 was collected under the uniform rate. After paying a registration fee the mortgage was not further taxed, thus avoiding double taxation so far as mortgages are concerned. The State Grange has for years pronounced against double tax and favors release of tax on mortgages.

While I would rather see, if it could be brought about, all private property taxed, yet if it is not feasible or practicable I would protest against levying certain forms of intangible property for exemption, as was done in the case of municipal bonds. If there is one intangible is exempted, let all classes be exempted. I believe that a corporation bond may be more properly exempt than a municipal. The corporation bond, say one who favors exemption of such bonds, is simply a piece of paper. Go to the road, that is the property. If you tax the bond and tax the road that is double taxation. I can see some justice in that. With the municipal bond and thing which it represents cannot be taxed, and the corporation bond is a piece of paper. It is claimed that the difference would be made in the price of bonds, but experience has proven otherwise. Even if a little were saved in the premium it would be made up in the rate.

Dr. Chamberlain's argument of expediency is a good one, I think. With a tax of 3.15 and interest of 4 per cent the Cleveland is not going to list his money on deposit. In Mt. Vernon the tax is 4 per cent and the interest 5 per cent; he is punished a dollar for being honest. In Bellefontaine the banks pay 3 per cent and the tax is 4 per cent. How are you going to get your money on the duplicate? If the constitution is ironclad and is returned it is struck with the uniform rate.

Under the uniform rate in Maryland the city of Baltimore returned \$6,000,000, while the revenue was \$80,000. With a flexible rate \$100,000,000 was returned, giving an income of \$380,000.

The question of distribution is quite as important as collection of funds. I earnestly recommend the enactment of a law providing for a uniform system of bookkeeping for each department, with annual auditing by expert accountants. With this system honestly and earnestly enforced there would not be need of a franchise tax. If such a system is not provided I would favor a franchise tax.

It is far easier to point out inequalities than suggest a panacea, and whoever attempts to point out the underlying wrong to a sane and sane system of tax revision in all its details is encouraging us to pursue a will-o'-the-wisp. Taxation is a creature of the people, and it is the duty of the legislature to revise it.

There is an insurmountable barrier between the present system of taxation and the next State Grange will take some position. At the last session by unanimous vote, the State Grange declared its willingness to co-operate with all other interests in promoting such a revision of our tax system as would be just and fair to all classes. As Master of the State Grange I would not undertake to speak for that body until it has declared its position. What I say is the result of my own convictions and upon my own responsibility. Our constitution was born more than half a century ago and ordained to meet conditions existing then. The revised document is confronted by conditions of which our fathers never dreamed. It is my deliberate opinion that there should now be lodged in some department of the government, directly responsible to the people, authority to revise our system of taxation from time to time as changed conditions, necessities and experience suggest.

The equitable assessment of personal property, much the larger portion of which is invisible, seems so hopeless a problem everywhere that it is leading an increasingly large number of persons to the belief that the tax on that sort of property should be abolished and something in the nature of a graded income tax substituted.—County Board of Assessment, Passaic, N. J.

Mr. Edgar Phillips left Monday for Saratoga, Jamaica, B. W. I., where he will spend a month with his parents. Mrs. W. B. McMillen and daughter, Katherine, spent Sunday in Granville. After a pleasant visit with friends and relatives here Mr. and Mrs. C. N. Moore of Sandusky, have returned home.

## A NEW CHURCH IN NORTH END TO BE ESTABLISHED

Yesterday was a great day at the tabernacle in the North End. The interest has grown until the entire North End seems to be aroused and many have been converted.

The meeting reached the climax yesterday afternoon when Rev. Mr. Dillin, after his earnest sermon on "Stewardship," asked how many present were desirous of having a church organized in the North End, when about 60 arose expressing such a desire. Many of them were business men and members of the best families in the North End.

So overjoyed were some of the people at the great victory the Lord had given them in the meetings that they shouted and praised the Lord in song.

The society will be known as the North End Christian Union and plans are being formulated for a church building at once.

The revival meetings will continue all this week. This evening Evangelist Dillin will preach his great sermon on "What Will I do With Je-Jesus?" Miss Dillin will sing.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Electric Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Hanson, Hamburg, N. Y.

## A Murderous Son.

Versailles, July 29.—Henry Huntington, son of Douglas St. Georges Huntington, former attaché of the American embassy at Paris, was arrested here on the charge of shooting his two sisters and one of his brothers. The tragedy occurred at the bedside of the father, who was dying, where Henry had returned to ask his father's forgiveness, having been estranged from his parents for some time past.

PRINCE EUI WHA AND HIS ADVENTURES IN AMERICA—MISS CLARA BULL.

emperor of the throne as to brush a fly from a man's nose.

## Banded About Like a Football.

Korea has been called "the cockpit of the nations." Russia, China and Japan have banded her about like a football. Japan has kicked a goal, and Korea is hers. Since the victory of Japan over Russia two years ago the grip which the island empire fastened upon Korea at the conclusion of the war with China has been tightened from day to day. Korea is now little more than a Japanese dependency. Yi Hui, who became king in 1894 and emperor in 1897, when he declared Korea an empire, has given up the throne because Japan really rules the land. The emperor had the audacity to send delegates to the peace conference at The Hague, with instructions to inquire into the why and wherefore of Japan's activities in the peninsula. This brought about the final rupture. In fear and trembling the emperor—in name only—stepped down.

Now, in the event of Eui Wha's elevation to the throne of this very ancient if not highly honorable nation, there are many in the United States who will open their eyes to the ultimate width and ejaculate:

"Well, I knew that fellow!"

There are at least three pretty American girls who may confess before their mirrors, each and severally:

"And I might have been the empress of Korea!"

There is a husky young farmer, a

turned home Monday after a short  
visit with friends and relatives here.  
J. Whelan and sister Ethel of Bel-  
laire, are visiting Mr. and Mrs. John  
Feeney at their home on South Second  
street.

Mr. Maholin Redmon called Sunday  
on Mr. William Francis of Nashport,  
who has been quite ill for a few  
weeks.

Col. L. H. DeBow, traveling represen-  
tative of DeBow Bros. emporium of  
Granville, U. S. A., was in the city  
Monday.

Walter Beene left his morning for  
Coshocton, where he will be em-  
ployed in the Adams Express com-  
pany's office as clerk for a while.

After a pleasant visit with Mr. and  
Mrs. R. L. Trace of Buckeye street,  
Mrs. B. F. Trace of Sundale, O., and  
Miss Hazel Denny of Zanesville have  
N. V. Harter of Newark will hold  
all week's meeting at Summerland  
Beach, beginning August 7th, with an  
all-day service. d&w

Mr. V. E. Thebaud, the architect,  
spent Sunday in the city with his  
family, and returned to Cleveland  
Monday morning.

Mrs. Mary E. White, who was called  
to Blue Rock, Muskingum county, sev-  
eral weeks ago by the serious illness  
of a relative, has returned home.

Mrs. Effie Linn, Mrs. J. W. Evans  
and Iva Haines have returned from a  
three day's visit with Sergeant  
Thompson of the Erie Soldiers Home.

Ernest Moore, the prestidigitator,  
with his wife and child, went to San-  
dusky Sunday where he will rehearse  
with his company for the season's  
work.

Mrs. E. F. Sprinkle and son, How-  
ard, and daughter Elizabeth of Knox-  
ville, Tenn., are the guests of Mr. W.  
T. Evans at his home on the Mt. Ver-  
non road.

Mr. Ed. McDonnell's young son,  
Eugene, had a bad fall Saturday  
night. He fell off the side walk from  
the curbing out of his go-cart and was  
quite seriously bruised.

Rev. T. A. Cosgrove, with his wife  
and family is on a visit to Stratford,  
Canada. They will spend a short time  
there and then go to Kallador, Cana-  
da, to spend the remainder of his  
vacation.

from Chicago, where she has been  
spending a few days. She has been  
attending the funeral of Mr. G. R.  
Thiel and the wedding of Miss Adeline  
Woodcock.

Mr. Francis Evans, who is with the  
Wells-Fargo Express company in  
Chicago, spent Sunday and Monday at  
the home of his father, Mr. William  
Evans, on North Fourth street. His  
wife has been here for the past two  
weeks.

Richard Sinsabaugh, the young tele-  
graph operator from C-K tower, Pitts-  
burg, who was visiting his home for  
the past couple of days, left Sunday  
for Pittsburgh, to meet a friend who is  
to accompany him to New York,  
Washington, Atlantic City and the  
Jamestown Exposition.

Mr. D. C. Jewett of Sioux Falls, S.  
Dak., who with is wife made an ex-  
tended visit here, and who recently  
went to Atlantic City, where they in-  
tended to spend the summer, were  
suddenly called home, and are now en-  
route. They will stop off a few hours  
at Pittsburgh, to meet a few friends,  
then go home, via Chicago.

What might have been a serious  
runaway happened Sunday afternoon.  
A horse reared at an engine, and went dashing  
by the Hotel Seiler, and was headed  
directly for a baby in a carriage that  
was left in an exposed position, when  
the porter at the hotel ran out and  
grasping the horse's bridle brought  
the animal to a stop. It was a quick  
and effective piece of work and a brave  
act done just in time to avert injury  
to the child that was in the perambu-  
lator.

Mr. Elmer Swick, a former resident  
of Newark, and who now is a seaman  
on the flag ship Alabama of the At-  
lantic squadron, is here on a short  
furlough visiting his relatives. Cap-  
tain Conley is the executive officer of  
the Alabama, which has just returned  
from the squadron maneuvers off the  
Cuban coast. Mr. Swick likes the life  
on the ocean wave, and will return in

## Why Do You

place a sign before your place of business? Because you want your friends to know you are in business. If you did not do so, it would take years for them to find out where you were or what you were doing. How do you expect your friends to know you have a house, lot, horse, buggy, or any other article for sale unless you put up your sign. The VERY BEST place to put that sign is in THE ADVOCATE WANT COLUMNS. Because they reach the people today, tomorrow, all the time. Because, the cost is so little—only 25 cents for 18 words 3 days.

THIS AND THAT

"A personal favor to me please  
don't mention the matter," is a very  
common request around a newspaper  
office. The editor is generally an  
accommodating fellow he usually  
complies. Then when the paper is out  
some one says, "Strange, but I don't  
see anything in your paper about this,  
this or the other thing."

To have mentioned the matter would  
have put him in the light of refusing  
to do a slight favor for a friend. To  
refrain from doing so puts him in the  
position of ignoring many.

## RECORD SPEED IN CONSTRUCTION

In the report of the eleventh meet-  
ing of the National Fire Protection  
Association is included an account of  
the erection of the first combination  
hollow tile and concrete building.  
Comment is made upon the remark-  
able speed with which it was put up.  
The report says:

"The first example of a combina-  
tion construction of hollow tile and  
concrete, built without the use of  
structural steel, brick or timber, is  
the New Blenheim hotel at Atlantic  
City. This house constitutes a part  
of annex of the Marlborough-Blen-  
heim, the two buildings being sepa-  
rated by a street although joined  
overhead by bridges.

Jointly it is one of the largest sea-  
shore hotels in the world. The own-  
ers desired a strictly fireproof struc-  
ture, also beauty of design and speed  
and the minimum of noise in the  
work of construction. This was un-  
dertaken by the National Fire Pro-  
ofing company. The work on the build-  
ing which is nearly 600 feet long and  
125 feet wide, eight stories high with  
dome equal to 12 stories high, started  
June 27 and was finished the fol-  
lowing December, thus establishing a  
record for speed in building that has  
probably never been equalled."

We are certainly excelling ourselves and  
everybody else in the present quality of Ar-  
buckles' Ariosa Coffee.

No such quality of coffee  
can be sold out of a bag, bin  
or tin, or under any other  
name by anybody in this town,  
for anything near the same  
price.

That's a strong statement, but you can  
take our word for it, and we are the largest  
dealers in coffee in the world. Another thing  
—the egg coating on ARIOSA COFFEE  
does not improve its appearance but preserves  
the flavor and aroma.

Remember that ARIOSA is  
not sold to look at, but to drink.

Complies with all the requirements of the

## Newark a Good Town.

Many who applied at the offices of the Wehrle Company were given employment Monday morning, the big plant taking on an air of old-time activity. At present nearly 2000 people are employed at this big foundry and more will be given work as fast as they apply. The company is advertising for more molders and needs workmen in all of the departments of the plant. Soon 2500 or more men will be on the Wehrle pay roll.

Next week the new Ohio Rail mill in the West End will be started, and it will be but a short time before 160 men will be drawing good wages for work performed in this new mill.

The Jewett Car Company is hurrying the work on its new erecting shop, which means an increase of working force by about 100 men.

A visit to North Newark shows marked progress on the construction of the mammoth machine bottle plant, a factory that will give Newark the credit of having the biggest glass bottle factory in the world. The new factory, covering nine acres of territory, will be equipped with the wonderful Owens machines, 27 in number, each of which makes 14 finished bottles a minute. The factory will consume Licking county natural gas, which promises to flow in undiminished quantity for many more years, but the company is providing for possible interruption by installing a gas making plant. The new factory is to be completed within a few months.

While these are the most important features of Newark's present industrial activity, others should be mentioned, among them the completion of a magnificent ten-story office and bank building by the Newark Trust company, the recent construction of a splendid hotel. The

Sherwood, the proposed construction of another magnificent hotel, the Warden, with 140 rooms, the construction of a \$65,000 addition to our high school, the paving of both East Main and West Main streets, the improvement of North Second street, and the erection of numerous residences throughout the city. Then the interurban lines should not be forgotten. Already the city has hourly service of cars to and from Granville, Columbus, Zanesville and Buckeye Lake and intermediate points, and plans for the construction of trolley lines running north to Mt. Vernon and Wooster and south to Lancaster are taking tangible form.

Newark is a growing, thriving little city and its splendid reputation abroad is spreading daily. The Board of Trade's offer of free factory sites and seven cent gas for manufacturing purposes should and doubtless will produce good results.

## WEST END MAN GETS FREE LOT

AN ENVELOPE IS DROPPED FROM A BALLOON BY PROFESSOR GAINES.

Last Ascension Will Take Place at Glenwood on Tuesday Afternoon, July 30.

On Tuesday afternoon at 2:30 Prof. Gaines is to make his last balloon ascension at Glenwood. The professor will take his trick dog along on the trip and doubtless many will be out to see the flight.

Saturday afternoon Mr. Gaines made a very successful ascent and as promised by the management of Glenwood addition, a contract for a free lot in this beautiful addition was dropped from the balloon. Thirteen envelopes were carried by the aeronaut. Twelve contained blanks, and the thirteenth entitled the finder to a deed to lot No. 223 worth \$150. Within 20 minutes after the balloon ascension, Ray Van Voorhis, a young man living at 151 North Williams street, brought the envelope to Manager Black and was given the prize.

On a previous day an envelope calling for a lot was dropped from the balloon, but it was not picked up. After waiting 24 hours for the lot to be claimed the management decided to try again and this time Mr. Van Voorhis proved to be the lucky one.

## NEWSPAPER MAN IS IMPRESSED INTO SERVICE

AND ASSISTS IN MAKING ARRESTS SUNDAY EVENING—LAKE GETS BUSY.

Business in Police Court Rather Dull For Monday Morning, Showing Lid Was On.

Two plain drunks were before his honor Monday morning and drew \$5 and costs each. One liquidated and was sent on his way rejoicing while the other, who said he hailed from Zanesville, will have to do a stint on the stone pile.

Two young lads were brought in from the West End charged with kicking over lanterns on Union street. Their cases were continued until Friday morning in order to allow them to secure witnesses.

Gatekeeper Jack Lake of the ball park, brought in a young colored lad charged with climbing the fence at the Saturday game. His hearing was also continued until Tuesday morning.

Three young men and two women were arrested by Chief Sheridan on Indiana avenue last evening, charged with disorderly conduct. The chief was in citizens' clothes and was accompanied by a well known young newspaper man. He was impressed into service by the chief and upon being handed several weapons for self protection did valiant service.

# THE POOR COBBLER.

Follows the Plumber's Advice and Now Regrets It.

ALMOST LOST HIS BUSINESS.

Hans Was Told to Extend Liberal Credit to Customers, but It Did Not Turn Out as Well as He Expected. Is Saved From Poorhouse.

COBBLER, 1007 N. 10th St., Newark, N. J.

It was one time when I had only one cement patch to put on for fifteen cent, and I was feeling blue and wondering if dey haf fried oysters in der poorhouse, when dot plumber comes in und says:

"Hans, I think so much about your case dot I don't sleep nights. You vhas a Dootchmans from Sherman. My

"A WOMAN'S ASH BIG ASH A HAYSTACK." great-grandmother vhas also a Dootchmans, und dot makes me feel for you. You vhas a poor und hardworking mans, but you don't get along, und dot vhas what makes tears in my eyes."

"Yes, it vhas hard times," I says. "Und it vhas hard times some more unless you make a change in your way of doing peesness. You see, you vhas cash down. If I haf a lift put on my heel you hold out your hand for der money. If a mans vhas some half soles you make him pay right away."

"But I must haf money to buy stock und to live on," I says. "Dot vhas der saddest part of all. If you could raise \$25 und start peesness in a new vhay you vhas a rich mans in two years. Did you ever hear of Christopher Columbus?"

"Yes. He discovers America." "Puts People on Their Honor." "But does he vhas cash down? Does he hold out his hand for der sugar? Of course not. After George Washington vhas a great mans dis country asked him to be his fadder. He says he vhas to, but he don't hold out his hand. No, sir. He takes der job on trust und lets us see dot he has confidence in our honor. When Abraham Lincoln vhas elected president, does he say dot he vhas back out if he doesn't get his wages every Saturday night? Not at all. Vhy, even when an alderman sells his vote he don't expect der cash for at least a week. If you would succeed you must do different. You must put peoples on der honor to pay."

"Must I trust?" I ask him. "You must. Peoples vhas curious folks. If you ask 'em for cash down der take it as an insinuation against der honesty. In my peesness I fix a water pipe for a house und don't send any bill. I depend upon der man's honor. Maybe it goes on for a year, and some day he vhas in und pays und tells me to put in new washtubs, a new boiler und to overhaul der furnace. For instance, I want half soles on my shoes. It vhas 35 cents. I tell you to go ahead. When you vhas done you hold out your hand for der money. I don't haf it. Dot makes me sad und humiliated. If you don't say anything I come in in about a week und pay up und bring you in four pairs of shoes to mend. See how it goes?"

"I can't see how she goes, but I take his word for it. Dot night I paint a big sign to put in my window. She reads:

"Come in. Der German cobbler extends credit to all. Everybody put on his honor."

Fat Policeman Calls.

It don't hardly be daylight next morning when der fat policeman on dot beat come knocking on der door, und when I lets him in he says:

"Vhell, Dutchy, I haf seen your sign. You are getting on to der American plan in great shape. No danger of you're going to der poorhouse. Here is a pair of shoes you can mend und put me on my honor to pay."

After breakfast a woman's ash big ash a haystack comes in mit three pairs of shoes in a basket. Dot smile on her face vhas like a washboard.

"Now, cobbler, you vhas getting down to peesness," she says. "Der reason I haven't patronized your shop befor is because it don't always come handy to change a hundred dollar bill to pay out a few shillings. I may pay tomorrow or next week, but I don't want to feel dot I am looked upon ash a deadbeat. Put a large, fat woman on der honor, und you vhas never lose a cent. Mend her shoes und tell her it vhas cash down, und she vhas never come back again. I haf long wondered why you don't change your vhay of doing peesness."

Shakes Cobbler's Hand.  
Der next mornig haf three pairs of shoes to mend. He smiles on me. He shakes hands. He puts der shoes on der counter und says:

# FOURTH CHANCE GIVEN POWERS

To Prove His Innocence of the Goebel Murder.

HIS CASE IS ON TRIAL AGAIN

The Famous Prisoner Has Twice Been Sentenced to Life Imprisonment and Once to the Death Chair — Former Governor Taylor to Be Asked to Appear as a Witness.

Georgetown, Ky., July 29.—Caleb Powers was placed on trial here today for the fourth time, charged with complicity in the killing of Governor William Goebel, seven years ago. Judge Sims, counsel for the defense, stated that his side wished to enter a motion to have special Judge Robbins sitting in the case removed and filed an affidavit in support of his motion. Judge Robbins adjourned court until this afternoon to allow the state's attorney to examine this affidavit, which contains sensational allegations. Georgetown is comparatively quiet.

Georgetown, Ky., July 29.—For the fourth time former Secretary of State Caleb Powers is on trial on a charge of complicity in the killing of Senator Goebel, at the state capital of Kentucky, seven years ago, at the time of the gubernatorial controversy. He was convicted in each of the three former trials and received a death sentence in the last. Therefore the outcome of the rehearing of this noted case, which began here today, is awaited with no small degree of interest.

Powers has been confined in various jails of the state since February, 1900, when he was arrested here as he was boarding a train for his home in the mountains of Knox county. He was wearing a soldier's uniform, and a full beard covered his face. When searched, a pardon for the Goebel murder, signed by W. S. Taylor as governor, was found in his pocket. This had great weight with the juries, who argued that it was conclusive evidence of his guilt. Powers and his friends, however, maintained that this is no evidence of his guilt, but that it would have been madness to have remained longer in Frankfort without protection, and that Taylor knew he was accused of the Goebel murder and knew that a pardon signed by him as governor would be honored outside of the lower part of the state. Federal jurisdiction was sought on Powers' behalf and he was for a time a federal prisoner, but the United States supreme court finally decided that he must be tried in the state courts.

It is estimated that it will require at least a week to secure a jury, and then if it can not be secured in Scott county, Franklin or Owen counties will probably be called upon to furnish a special jury panel.

In the list of witnesses discussed by Powers and his attorneys appeared the name of W. S. Taylor of Indianapolis, who was governor of Kentucky when the legislature decided the election contest in favor of Senator Goebel as governor. Taylor will likely be summoned by the defense, although there is no possibility of his accepting the summons. For seven years Taylor has lived in Indiana, and although frequent demands have been made upon that state by Kentucky for his return, Indiana would never surrender him, the two Indiana governors who have been in office during this time stating publicly that Taylor, who is also charged with the murder of Goebel, could not obtain a fair trial in Kentucky.

A reward of \$100,000 is still outstanding for the murderers of Senator Goebel. Five thousand dollars reward was offered for each conviction, while \$25,000 was provided to be used in investigating clues, etc.

# FOURTH CHANCE GIVEN POWERS

To Prove His Innocence of the Goebel Murder.

HIS CASE IS ON TRIAL AGAIN

The Famous Prisoner Has Twice Been Sentenced to Life Imprisonment and Once to the Death Chair — Former Governor Taylor to Be Asked to Appear as a Witness.

## TURTLE'S HEAD KILLS CHICKEN

Mr. Albert Seiler, the popular landlord of the Hotel Seiler, was engaged in killing some spring chickens Saturday in the yard back of the hotel. He had just assassinated seven tender springers and then turned his attention to a large snapping turtle, which he rendered, as he supposed, "hors de combat" by decapitation.

He then stepped into the cafe attached to the tavern for refreshment after his unwonted exertions, and left several live chickens on whose lives he had no designs at this particular time, stepping around on the gory field. Happening back in a few minutes to the scene of carnage, he was startled to see another chicken flopping around as if he also, had just parted with his head. Mr. Seiler is a good accountant and he knew just how many fowls had just succumbed to his prowess. Wiping his mouth with the back of his hand so he could see better he proceeded to investigate and solve the mystery as to why the extra rooster was in the throes of dissolution.

It appeared upon further probing into the affair, that the chancier that was doing the queer stunts, had investigated the snapping turtle's head which was lying in the yard with the other cold, stiff remains. He evidently had taken a peck at snapping's head, and the head, true to the turtle instinct, had taken a snap back at Mr. Chicken, and had caught on with telling effect, for the reptile had gotten the strange hold on his assailant, and by the time that the

head could be choked off, the pugnacious fowl was still in death. It just made one more name in the pot for the guests of the house.

## DAY'S BUSINESS IN COURT HOUSE

### Common Pleas Court.

In the case of Louis P. Schaus vs. Newark Savings Bank company. Several lots of land remain in the custody of the receiver, which were offered heretofore and unsold. An order was made to re-offer them at public sale.

Consumers Brewing company vs. Clark; David M. Keller was appointed receiver to take charge of rents of the property until the hearing of the case. Norpell & Norpell.

Nancy Bell vs. Taylor et al, an action for partition of real estate; sale confirmed. Leave given to file answer and cross petition on behalf of Emily Burkholder. Stasel; Fitzgibbon.

Levi Mitchell vs. Hummel Keim; a creditor's bill in which the B. & O. was garnished. The petition alleges the recovery of a judgment by Mitchell against defendant, and that certain moneys are due Keim from the B. & O. A motion was made to release the money tied up by the proceeding for the reason that Keim is married, living with his wife in this city, and that the property sought to be appropriated to the payment of the judgment is the personal earnings of Keim within three months before the commencement of the suit, and necessary for the support of his family. The court held that the wages were exempt from appropriation under the proceedings from being applied to the payment of the judgment of plaintiff. King; Nott.

In the case of State of Ohio ex rel. Bessie Simpson vs. Benjamin Wright, a bill of exceptions has been filed. The defendant was found guilty on a paternity charge, and sentenced to pay \$400. The defendant takes the case to the Circuit court, asking a reversal. Smythe & Smythe; Kibler & Montgomery.

### For Non-Support.

Fred Connell was arrested on an affidavit filed before Justice Nash, charging him with failing to provide for his three minor children for the past four weeks. The hearing was set for Friday, August 2, at 9 o'clock a. m. Connell gave bond in the sum of \$100 for his appearance in court on that day.

### Motion Filed.

In the case of Arlington C. Nessley and others against the Anchor Fire Insurance company, the defendants have filed a motion in the Common Pleas court wherein they move the court to render a judgment in favor of the plaintiffs and against the defendants in accordance with the verdict of the jury heretofore rendered. Kibler & Montgomery, attorneys for the plaintiffs.

### Divorce Case.

The divorce case of Tillman Shaw against Ella Shaw was heard by the Probate court Monday. The parties were married in 1898, and no children were born of the marriage. The plaintiff is an expressman in the employ of Moses Long, and his duties keep him away from his home the greater part of the time. Shaw charges his wife with gross immorality during his absence from home and the evidence bore out the truth of his statements. He was given a decree. Fulton & Fulton for plaintiff and J. V. Hillard for defendant, who made no contest.

### Partition Sale.

The property of the late Lorenz Renz, being the old homestead, corner of Columbia and Seventh streets, was sold by Sheriff Redman Saturday in partition proceedings in the case of Emma Renz against Mary Renz and others. The property was bought in by Mary Renz and Laura Buehm for \$3500.

### Hill Will Case.

In the case of James M. Willison against Horton J. Buxton and others, the defendant, James J. Hill, has filed his answer in which he denies all the allegations in the petition of plaintiff, not admitted to be true. He says that Mary L. Hill at the time of making her last will and testament and the codicil, was of sound mind and memory that she was under no undue influence whatever; that she was not persuaded or coerced into the signing of her last will and testament or the codicil by the undue influence of the defendant or others conspiring with him, nor by the false, fraudulent and collusive representation of the defendant and of others at his suggestion, but defendant says that the last will and codicil were made freely and voluntarily by Mary L. Hill. Defendant prays that an issue be made up as to whether the paper writing consisting of the will and codicil are the last will and testament of Mary L. Hill, and defendant further prays that same may be declared to be the valid last will and testament of Mary L. Hill and for all other proper relief. Kibler & Montgomery, attorneys for defendant.

### Suit for Alimony.

Daisy Harper has commenced suit in the Probate court against her husband, William Harper, for alimony, and the Youngstown Iron and Struc-

ture company has been made a party to the suit. Plaintiff says that she was married to the defendant on May 2, 1901, and that one child, born of the marriage, being Henry Harper, is now living. She says that on July 26, 1907, her husband abandoned her saying that he would not provide for plaintiff or child, and that he would never return. She says that on the day he left home he charged her with infidelity and that he drew a razor and threatened to kill her; that her husband is an employee of the Youngstown Iron and Strucure company, which is indebted to him in the sum of about \$40 and that he is attempting to collect it for the purpose of putting the same out of reach of the plaintiff. She asks for reasonable alimony and asks that the company be enjoined from paying her husband any part of its indebtedness to him and also prays for the custody of the child. Smythe & Smythe, attorneys for the plaintiff.

### Another Partition Case.

The hearing of the testimony in the partition case of Davidson vs. Davidson was resumed in the Probate court Monday afternoon.

### Real Estate Transfers.

Mary M. Bullock to Isaac Bullock real estate in Newark, \$1, love and affection.  
Lizzie A. Rainey and others to Ada M. Perry, real estate in Alexandria, \$1 and other considerations.  
Sophia E. Vandenberg to Verda L. Howell, real estate in Madison township, \$500.

## UNITED STATES BACK OF OTHERS IN SOLDIER'S PAY

Washington, July 29.—It has been asserted that Uncle Sam's soldiers were by far the best-paid in the world and this belief has in large part been caused by the failure of attempts made in the past to secure increased pay for our own soldiers. But now in connection with the systematic preparations that are being made to lay the subject of "something wrong with the army" before congress at the next session, it has been discovered that this belief is founded on error and that several nations are much more liberal in the treatment of their soldiery than is the United States. This fact will be brought to the attention of congress in connection with the subject of a general increase of salaries of both army and navy. A Canadian sergeant, for instance, enters upon his service with a wage of a dollar a day. The American sergeant gets \$18 per month at first, and his expenses are larger than the Canadian noncommissioned officer. The same difference of wage runs through all of the grades of the two armies.

Even Cuba pays her soldiers three times as much as the American private. Other countries than these two exceed America in their pay allowed their soldiers, and the data is being got together to make up a strong case to demonstrate to congress that the real reason for the numerous desertions from the American army is the small wage paid to the soldier compared with the compensation in civil life. And in this connection it will be shown to congress that the present scale was fixed by law more than 50 years ago (there has been only one increase, and that of only one dollar per month in that time), when the wages of civilian workmen were probably not much more than a third of the present scale.

### PRESENT TESTIMONIAL

Sunday morning after the services at Trinity church, Professor V. Nold, the retiring organist, was presented with a testimonial by the members of the choir, expressing their gratitude for the teaching and instruction that they had received from him in the capacity of choir master. Professor Nold was taken by surprise but gracefully acknowledged the present. Mr. Nold left Sunday for New York where he goes to assume his new duties as organist in St. George's church.

### SKIN DISEASES CURED.

## SOLDIER BOYS HOME FROM CAMP AT PORT CLINTON

MONNETT AND DAVIS QUALIFY FOR PLACES ON TEAM SHOOT IN AUGUST.

Captain Smart Range Officer for Big Shoot at Camp Perry—Boys are Happy.

Company G of the Fourth regiment U. S. G. broke camp at "Camp Perry," the grounds now owned by the State of Ohio near Port Clinton, Sunday morning at 8:30. They arrived at their home in Newark at 7 p. m., and after marching to the armory on East Main street the boys, after enjoying a memorable outing, dispersed to their homes.

The general health of all the soldiers during their stay at Camp Perry was good and it was a very successful camp from every point of view. The schooling was thorough, and the boys learned a great many new things that a soldier should know.

Captains Carson and Burnside of the regular army were there for inspection and to see what the boys were doing and they all got some pointers that might be of use to Uncle Sam for it is true that in some details the National Guard is more modern than the organization of your Uncle Samuel.

In shooting, for instance, and quick mobilization the National Guard is to the front, and the veterans of the civil war can feel easy that they have left the guarding of our country in competent hands. For with our small but effective regular force, and this already well-drilled and effective force, with our millions of able-bodied men ready at a moment's notice to take up arms, there is no real danger from any force on earth.

To get back to the camp again. The railroad facilities that now exist for transporting troops there to the school, for a school it is, are fairly good now, but will be improved right along. The drainage is not yet completed, nor is the light plant yet installed, but is being rapidly finished and will be complete very soon.

The shooting range is first class now, and the arrangement for keeping track of the results of the shooting are the most modern in the world.

From August 18th to the 25th, the National Rifle Association will shoot for the military championship of the United States. The association includes teams from all arms bearing organizations in the country, and as the sport is practical as well as a fact great rivalry has been engendered and with the practice that the militia has had recently, good scores will be made at the big shoot.

Ohio is now the home of a great many phenomenal shots, and on account of the interest that is now being taken in the sport all over the state, every day some new expert is bursting into the lime-light.

In the shoot of the Fourth regiment First Sergeant Milton Monnett and Sergeant Foster Davis of Company G qualified for places on the regimental team shoot in August. Sergeant Monnett made the highest skirmish score that was made by any member of the regiment, and for his work, was presented by Lt. Col. Barger with a trenching tool that was used in the Boer war. The tool is of unique design, and of fine steel, and almost anything can be done with it. The Sergeant will have it nickle-plated to preserve it and will place it on exhibition.

Captain Harry G. Smart of Co. G was detailed as range officer for the big shoot at Camp Perry in August and will be accompanied by Sergeant Monnett and Sergeant Davis, and these experts hope to bring home some of the honors.

Captain Burnside of the regular establishment, spoken of above, is an old Newark boy, being a graduate of the Newark High school, and took a great interest in the doings of our local company.

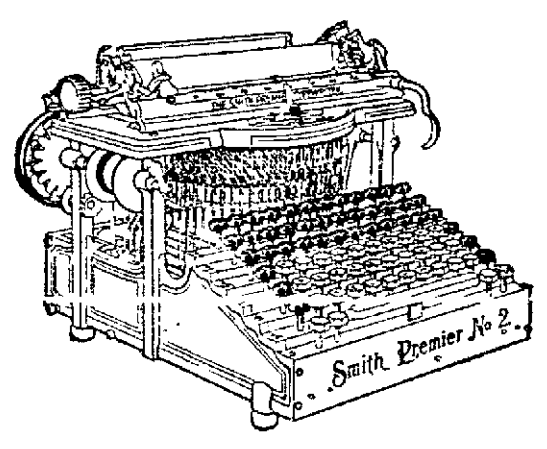

On Thursday happened the only trying incident of the whole camp. A fearful rain and wind storm broke over the tented field, and it was with great difficulty that the tents were held down.

Everything considered the camp was a credit to the regiment and the State of Ohio, and the boys pulled up the tent stakes with regret, as all were pleased with the treatment accorded and with the location of the camp.

## JAMES A. DICKS JOINS THE FORCES OF FRED C. EVANS

Another Evidence of the Growth of the Newark Plumbing and Supply House.

James A. Dicks, after 15 years' of experience in the various branches of the plumbing business in Newark, has arranged to join the forces of the Newark Plumbing and Supply House, the first of August.

Mr. Dicks is a thorough man in his line, having repeatedly demonstrated his skill as an efficient plumber. He will be pleased to have his friends and former patrons favor him by having their plumbing done in the future by the Newark Plumbing and Supply House.

Mr. Fred C. Evans, proprietor of the Newark Plumbing and Supply House of 23 and 35 West Main street, is to be congratulated upon his success in surrounding himself with a coterie of as skilled mechanics and plumbers as ever worked in the state. His up to date equipment, his very best grade of stock and modern tools could not make this establishment the foremost of its class in Newark were it not for the care with which he selects the men who are to do the work required by his patrons.

Andrew P. Trimble will continue as the foreman, there is not a more thorough, reliable and conscientious plumber in this city. Mr. Trimble learned the plumbing trade in Pittsburgh where he was for seven years one of the principal plumbers with James Rowbottom, one of the largest concerns of the kind in the Pittsburgh district. With twenty-one years of experience, and energetically keeping himself abreast of the best ideas of his trade, he is competent of superintending all work offered to his employer. He will continue to have as his assistants E. M. Edmonds and C. D. Holler, both of whom are industrious and skilled workmen.

In connection with the plumbing business, Mr. Evans is doing a wholesale and retail business in groceries, fruit, water and gas supplies. This department is in charge of A. D. Hayes, who is an experienced salesman. It is the intention of the proprietor, with the support of the public, to give Newark a plumbing and supply house that will not only be a credit to the city, but will meet every requirement of her citizens.

A big balloon ascension and double parachute jump will take place at Buckeye Park next Sunday, 6th.

Walter East's men were up against the real article Sunday and went down to defeat before the superior pitching of big Eddie Asher, who struck out seven Rubber Neckers and only gave one free ticket, and allowed but two hits. He was also effective in a pinch, and not a man reached second base. He was ably supported by his team mates, and the game was interesting from start to finish.

Two hits were made in the first inning by the Newark lads with only one down, but they could not score, as Ehman held them down, which happened on several other occasions as the box score will show. True, the Molders were credited with nine hits, but they were all for naught, being well scattered and Buff seemed to be there at the right time.

Lalange was right with the shin guards all right, but the leaders copped a couple of stolen bases off him. Caffyn made as pretty a running one handed catch as was ever seen at the park. Wratten hit a high one to the left foul line and Caff started after it, reaching there just in time to scoop it up off the ground with his life digits.

In the second with two down, Sandy copped a hot liner off Goode's bat and threw a little low to Gygil, and the fifty right fielder was safe. Fortunately it didn't help matters any as Eddie fanned the next man up.

The teams will meet again this afternoon and as the Tip Tops will be out to try and make it a break even, the sport promises to be as exciting as it was yesterday. Only one score was made. It happened in the second inning thusly:

Haval, the first man up, smashed out a single and made a beaut of a steal, taking running slide of about 20 feet, but Walter missed him. He reached third after Callahan had pulled in Gygil's long fly and came home on Bunny Pearce's safety. Murray had previously gone out on a high

foul and the inning was ended by Eddie flying out to Callahan. Nothing doing in the scoring line thereafter. The score:

McALEESE BREAKS RIGHT SHOULDER  
That was a very unfortunate accident that happened McAleese in the game with Youngstown Saturday afternoon and may disable him for some time to come. In the eighth inning he took after Pearce's high fly and after catching it fell on his right shoulder, dislocating it. The fracture was reduced by Dr. J. G. Shirer and McAleese left four Youngstown with the utility man, Dope Brady, the same evening. He will leave there for his home at Sharon.

The injury is a painful one but Mr. McAleese hopes to get back into the game in a few weeks.

WALL RELEASED  
Washington, Pa., July 29.—The Washington payroll was cut down by the release handed to Wall, the outfielder signed about two weeks ago. Wall was secured from Newark of the Ohio and Pennsylvania league. His fielding has been fairly satisfactory, but a slump in batting prompted his release.

THE CHAMPS CARRY AWAY BOTH GAMES  
MOLDERS SHUT OUT IN SECOND GAME BY WRIGHT'S BOYS FROM MAHONING.  
McAleese Gets Broken Shoulder Capturing a High Fly and Will Be Out For Some Time.

The Champs have come and gone and they carried away two to their credit, winning the second game Saturday. It was a battle royal but Newark's costly errors and Latham's decisions did the business.

It is natural for the home fans to kick on the umpires decision but in this case they were surely justified. Latham, as on the previous day, was way off color on balls and strikes and Youngstown received way the best of it.

Stoup was on the firing line for the Molders and Schattler was the choice for the Champs. Both twirlers were in good trim, the former allowing six hits while Louie allowed but three. Only one run was earned by the Mahoning boys while Newark should have had one in the sixth when Dr. Abbott attempted to score on Wratten's bingle into the territory covered by McAleese. The runner was miscoached but it was excusable as it only looked good for one base, but after Mack fumbled the ball the doctor was given the office to keep on stepping but valuable time had been lost and he was retired at the plate by Mack's quick recovery and throw home.

In the seventh Haval's two errors were costly and assisted in allowing McClintock to score. He threw a little high to Gygil both times. If any one else but Latham had been arbitrating Mr. McClintock would never have reached first instead of drawing a free ticket. He was struck out as fair as could be but Latham must be sour on the leaders for some reason.

In the fourth Snyder hit a peach that fell just out the foul line a few inches and rolled away back in the grass. Had it landed in fair territory it would have been good for a triple. It just shows how the fickle goddess of fortune favored the other fellows.

In the eighth Pearce sent one out to the right territory and McAleese made a great run for it scooping it up just as it was coming into contact with mother earth. He fell and did not get up for his effort cost him a broken shoulder. Several of the players hurried to him and seeing that he was badly hurt called for a physician, Drs. Smith, Shirer, Barnes and Palmer responding. They did what they could for him and he was sent to his hotel in a carriage where the dislocation was reduced but he will be out of the game for some time. B. Thomas was sent out to replace him. Play was delayed for ten minutes, while the injured man was being cared for.

In the ninth with one down Bannon copped another hit for the second time since getting into the game. He was followed by Ostdeik who was given life by Wratten's fumble, then Schettler knocked out a bingle. The bases were now full and the squeeze was attempted, but it didn't connect for Bunny got the ball from a few feet in front the plate and threw to Gygil who covered home. The agony was not over as the bases were still full, but Blount settled it by knocking a high one to Snyder. The Molders went out in one two three order. The runs were made in this manner.

W. Thomas came to bat in the fifth but went down on a fly to the fifth man. He was followed by McClintock who hit into safe territory and stole the only base in the game. Bannon went out on a high one to Abbott, was followed by Ostdeik with a safety and McClintock scored. Schettler copped a hit but the run getting ended by Starr flying out to Schweitzer.

McClintock again scored in the seventh by drawing a free pass, being sacrificed by Bannon and reaching third on Haval's error. Schettler popped up a foul which Bunny gathered in and Mr. Mc scored on a bad throw too Gyg and Blount went out Murray to Gygil.

King Co. vs. Jewetts.

The King Co. and the Jewetts played to a fair sized audience at the Superior grounds Sunday morning. The Jewetts quit in the seventh inning, claiming a bad decision by the umpire. Both teams are claiming the game. The score as handed to the Advocate when the game ended in the 7th was 8 to 6 in favor of the King Co. They also had nine hits and three errors, while the Jewetts had four hits and five errors. No official decision on this game has as yet been given.

Batteries—Harris and Church; Redman and Morris.

Meridith 7, Pratt Co. 2.

The Meridith and Pratt Co. ball teams played an interesting game of ball at the Idlewild grounds on Sunday morning, the former winning by a score of 7 to 2. Panny, baker, the Nelsonville southpaw, was in the box for the Pratt boys, but could not let out as the catcher was unable to hold him. He showed up in good form and there is no doubt but what he has the speed and curves.

## MAY DISPOSE OF LANCASTER FRANCHISE

FANS ARE NOT GIVING PROPER SUPPORT TO THE LANCASTER TEAM.

Franchise May be Disposed of to Lima or Sandusky—Players Released.

The conditions that confront the directors at present, says the Lancaster Eagle, are anything but promising for the future of baseball in this city.

The committee appointed at last week's meeting to sell the balance of the stock reported that they had sold five shares, besides three shares sold by Mr. Hutch House.

The sale of tickets for the benefit game was not nearly as large as was anticipated.

Sizing up the situation as it is the life of baseball in Lancaster is of short duration unless the citizens come to the front and meet the crisis.

The indebtedness of the club is not large and if the facts were known we doubt if there is another club in the league that is in as good condition. There is a note standing out of \$700. Pay day will be here again on the 1st of August, which means about \$1100 more. There is at present about \$400 in the treasury not including the eight shares subscribed this week which makes the amount \$600. Lancaster fans are not very game if they are going to let this franchise get away under these conditions. They have been asked repeatedly to support the team and if they won't do so with their money or their attendance at the games, then it is all off.

A last Friday's night's meeting Secretary Gray was on motion instructed to write to Lima and Sandusky, two cities that have been anxious to get in the O. P. league and know a good thing when they see it, to try and dispose of the franchise to them and report at another meeting to be held next Friday night.

The secretary and vice president, in the absence of the president, were instructed to release the excess players now on the team and these documents will be handed Eichberger, Riley and Gould as soon as prepared.

PEARCE A MUCH WANTED MAN AT PRESENT

Some classy men are playing in the O. P. league this season and it is practically certain that several will mount higher at the close of the season. The sensational climb of the Newark team from the bottom of the first division to the top of the pennant ladder, has caused much comment upon the various Newark players, with the result that many sales have been reported. Catcher Bunny Pearce seems to be the much wanted man of the minor leagues just now. His work for the Newark leaders has been sensational all season and it has been reported that the Chicago Nationals, Detroit Americans and Pittsburgh Dreyfuss of the Pirates denied that he was after Pearce, but it is almost certain that Chicago and Detroit are after him, and it is very likely that he will receive a tryout with one of these teams next spring. In connection with Pearce, the name of Pitcher Asher is mentioned, but it is hardly likely that he will reach the majors this year. Outfielder Abbott and Second Baseman Murray are also mentioned.

The work of First Baseman Schwartz and Outfielder Coffey at Akron will probably bring them better jobs in the spring. If Elmer Flick and Harry Bay are to be lost to Cleveland next season it is likely that Caffyn will be given another chance to make good with the Naps. Youngstown has several good men, among them being Shortstop Captain Starr, Outfielder Blount, Outfielder First Baseman McAleese, Catcher Ostdeik, and First Baseman Bannon, any one of whom would make good in either the American Association or Eastern league, but rather uncertain as major leaguers.

JOHNNY MCGRAW GETS A STINGER IN THE MOUTH

Cincinnati, July 29.—John J. McGraw received a blow in the mouth Sunday afternoon that staggered him and brought the crimson to his lips. That he did not receive a second and then some was due to the interference of a big crowd that collected about him and his assailant, Frank Kramer, an ex-pugilist, who has been employed at the ball park as private policeman. The encounter occurred at the close of the second game of the afternoon program between the Giants and Reds. Kramer reprimanded Danny Shay for

some of his retorts to the rooters, who sought to make Shay a target for their jibes. McGraw interposed and told Kramer not to speak to the men on the New York bench, as the umpire was the proper person, he thought, to look after the conduct of players. One word followed another, with without any warning, Kramer landed a powerful blow on the New Yorker's mouth. Before McGraw could recover from his surprise and retaliate in kind, the crowd interfered. At first the giant, the crowd talked of having Kramer arrested, but later decided not to do so. President Herrmann will take up the matter.

## THE M'KINLEY TOMB

Features of Mausoleum Soon to  
Be Ready For Dedication.

Former President's Tomb at Canton,  
O., is Ninety-eight Feet High and  
Seventy-nine Feet in Diameter—Double  
Sarcophagus to Be Provided.  
Suggestion of Cross and Sword in  
Approaches to Imposing Structure.

The \$500,000 McKinley tomb at Canton,  
O., is rapidly approaching completion,  
says the St. Louis Republic. Construction  
was begun in the spring of

1905, and the cornerstone was laid on  
Nov. 16, 1905. The architect and contractors  
express confidence that it will be  
completed to the last detail by the  
early autumn of 1907, the time set for  
the dedication of the tomb.

The mausoleum is ninety-eight feet  
in height and seventy-nine feet in diameter.  
The grand stairway, which  
constitutes the principal approach to the  
tomb proper and is an essential  
part of the design, is seventy-five feet  
in height.

The principal material employed in  
the construction of the monument is  
pink Milford granite, which has been  
utilized not only for the exterior of the  
mausoleum, but also for the steps and  
balustrades. The interior of the memorial  
is finished in light gray Knoxville

marble, with a honed surface. The sarcophagus  
is to be of black polished granite. The rough walls of the edifice  
throughout are constructed of concrete,  
re-enforced with steel as necessary and  
faced with the materials above indicated.

Architect Magonigle's design, which  
was chosen by a jury from those submitted  
in competition, shows great sobriety of  
outline and detail. He rejected the  
frequently suggested exterior  
columnar treatment not only as being  
too rich in motive, but as likely to confuse  
the mass unduly when seen from a  
distance, and chose a form described in  
the Ohio Magazine as "circular domical  
wall architecture."

The columnar treatment, which was  
barred from the exterior, is, on the  
contrary, employed most effectively in  
the interior, where it assists in a reader  
comprehension of the scales of the  
edifice. The lighting is entirely from  
above. A double sarcophagus is to be  
provided, as Mrs. McKinley will rest  
beside her husband.

The site is a tract of twenty-six  
acres, forming the crowning eminence  
of the picturesque West Lawn cemetery.  
The pilgrim to the last resting place  
of the dead president finds spread  
out beneath his eyes a varied  
landscape, beyond which lies the whole  
panorama of the city of Canton.

In the general arrangement of the  
approaches to the tomb there is a suggestion  
of a cross and a sword—a symbolism  
which has been deemed peculiarly  
appropriate in a memorial to one  
who was a martyr and a president in  
time of war. One of the most conspicuous  
features of the whole scheme is the  
introduction of what has been  
technically denominated a long water,  
an artificial lake or basin directly in  
front of the mausoleum, in effect not  
unlike the prayer rug forming the avenue  
of approach to some eastern shrine.

The basin, which is more than 500  
feet in length, widens gradually as it  
approaches the memorial, broadening  
from thirty-five to sixty-five feet, so  
that the vista includes the whole width  
of the steps that rise directly from this  
water pathway to the main entrance to  
the tomb. It is the function of this  
quiet basin to reflect the architectural  
composition beyond and thus doubly to  
impress the vision upon the mind of  
the beholder.

Another supplementary feature that  
contributes in no small degree to the  
effect is the presence of a statue of the  
late president at the head of the grand  
staircase and about fifty feet in front  
of the facade of the mausoleum.

As a sort of portal to this patriotic  
Mecca there is a circular plaza. This  
plaza is, however, without any treatment  
other than a parapet wall and the  
disposition of the trees, it being felt  
that being merely a turning point the  
attention should not be held by anything  
here. From this circle the approach  
to the monument is of great beauty.  
The oblong lake or basin previously  
mentioned is the central feature

and is bordered by two avenues  
shaded by trees.

It is assumed that visitors in carriages  
will take the central alley of the  
three, which slightly diverge on leaving  
the circle, and will draw up at the  
foot of the basin for a distant view of  
the mausoleum, thence passing up one  
of the side alleys to the esplanade at  
the base of the grand staircase.

Various approaches for pedestrians  
have been provided, and there is also  
a well arranged connection between  
the main approach and the system of  
drives in the cemetery. The tomb itself  
is not more than a mile from the  
lines of the principal railroads passing  
through Canton and is therefore within  
plain view of thousands of travelers.

The original plan contemplated dedicatory  
exercises on the anniversary of the  
funeral of the late president, but it  
is probable that in order to assure  
the presence of President Roosevelt  
as orator of the day a later date in September  
will be chosen. The programme  
will include, of course, the transfer of  
the body from its temporary resting  
place in the receiving vault at West  
Lawn to its final abiding place in the  
sarcophagus of the memorial, and as  
escort for this last sad journey there  
will be an impressive civic and military  
pageant.

## LIVED TOO SOON SAYS KID MCCOY

"I guess I was about 10 years ahead  
of my time," said Kid McCoy, a contender  
for the pugilistic championship honor  
a decade ago.  
"Had I been in my prime as a fighter  
now I might be champion. Burns is  
the kind of a fighter that was always  
peaches for me, and he seems the  
best of a rather poor lot. I could  
go around him like a copper around  
a barrel if I were as good today as  
when I fought Gus Kublin and Tommy  
Ryan."

McCoy and his wife are touring  
from New York to Mt. Clemens in an

and is known by the family name,  
Norman Selby. McCoy is rich. He  
saved some money from the prize

## B. & O. WILL SOON HAVE FULL THREE TRACK DIVISION

THIRD TRACK CENTRAL CITY  
TO OUTVILLE IN OPERATION  
TUESDAY.

Busiest Division in State is That Between  
Newark and Columbus  
—Railway Affairs.

Important improvements on the  
Columbus and Newark division of  
the Baltimore and Ohio railroad are  
nearing completion. Next Tuesday,  
the new third track between Central  
City and Outville, a distance  
of nine miles, will be put in operation  
and will greatly relieve the  
congestion on the division. Work  
on the new third track between  
Summit and Black Lick is progressing  
rapidly and the officials expect  
to have it completed in about  
two weeks.

The new track between Central  
City and Outville will be used by  
west bound freight trains and that  
between Black Lick and Summit by  
east bound freight trains. It is the  
intention of the officials to keep on  
building and connecting up sidings  
until they have three main tracks  
between Columbus and Newark, a  
distance of 33 miles. This division  
is used by both the Pennsylvania  
Lines and B and O for their east  
and west bound trains and is the  
busiest in the state.

Studying Wrecks and Accidents.  
The Baltimore and Ohio railroad  
has instituted a minute study and  
investigation of the subject of rail-  
road wrecks and accidents, with the  
ultimate purpose of minimizing the  
possibility of disaster on its own  
system and to further increase the  
safety of travel to passengers on its  
lines. What is desired is a first-  
hand knowledge secured through a  
careful study of the great railroad  
systems of the country by an expert  
railroad man and a painstaking and  
accurate statistician. The work is  
already under way a prominent official  
having recently made a study of  
several of the more important  
New England roads and the systems  
of Canada.

Fingers Mashed.  
J. O. Anderson, of Newark, a  
B. and O. freight brakeman, running  
on one of the locals, had the  
first three fingers on his right

hand very painfully mashed while  
assisting in unloading heavy boxes  
of stogies at Bethesda. The company's  
surgeon at that point was called  
and after the injured fingers were  
dressed Mr. Anderson came to this  
city and left for his home in  
Newark. He will be off duty for a  
number of days.—Cambridge Jeffersonian.

B. & O. Excursions.  
The excursion business was extremely  
good on the B. & O. Sunday. They  
had about 800 people on their trains  
from Newark to Sandusky and  
from Washington, Pa., Wheeling, W.  
Va., and Bellaire to Columbus.

## CHANCE FOR A BIG PURSE AT RENO

San Francisco, July 29.—Joe  
Gans has agreed to make 133 lbs.,  
stripped at the ringside, for a fight  
with Battling Nelson, if the latter  
wins his bout with Britt. Nolan  
held out for 133 pounds in full ring

there is a chance for a \$45,000  
purse for the fight at Reno. Nolan  
will squeeze Gans to the last ounce.

## AMUSEMENTS

IDLEWILDE PARK.

The usual good Sunday business  
prevailed at the Idlewild Casino yesterday  
afternoon and evening. The  
Graham stock company opened the  
second week of its return engagement  
with a first class production of "The  
Mormon Wife." Both play and vaudeville  
were evidently heartily enjoyed.

The specialties included the return  
of Magician Mora with an entire new  
list of tricks, the favorite dog circus,  
a clever character specialty by Dot E.  
Jewell and Mr. Graham himself.

The change of play on next Wednesday  
evening will be "Cowslip  
Farm," a new rural comedy.

A complete change of vaudeville  
numbers will be made with each  
change of play.

An honest confession is good for the  
founder.

## A Nurse's Story

If you are a sufferer  
from headache, neuralgia,  
or pain from any cause  
you should read the following  
letter from a nurse.

"For sometime I have felt it my  
duty to write you. I was having  
my doctor twice every week for head-  
ache. All he did for me was to give  
something to ease the pain. Some-  
times the pain was so severe that I  
could not speak, and members of my  
family stood over me and gave me  
medicine every fifteen minutes until  
I was relieved. A sample of Dr. Miles'  
Anti-Pain Pills fell into my hands. I  
read the circular very carefully, and  
found my case described exactly. The  
next time my head began to ache I  
took the Pain Pills according to di-  
rections and I felt I was getting  
better. I had done, and he replied:  
"If you have found anything that will  
help you, stick to it," and so I have.  
Being a nurse I have recommended  
them to a great many grateful people.  
One case I will mention. I saw a doctor  
go to a neighbor every week for  
headaches; but for a long time I dared  
not suggest anything to her. One day  
I met her and I gave her a half a  
box of Anti-Pain Pills and she used  
them and had no more doctor since.  
She says they are a great blessing to  
her and said, "why didn't you tell me  
about them before." I could tell you  
of many similar cases."

## GOVERNORS OF OHIO

WILLIAM M'KINLEY—1892-1896.

William McKinley (1892-96) was born at Niles, O., Jan. 29, 1843, of  
Scotch-Irish ancestry. He enlisted as a private in the civil war, working his  
way by his bravery and military achievements to the rank of major. He was  
admitted to the bar and moved to Canton, which place was his residence during  
his life. He became prominently identified with the Republican party,  
holding some position of trust for many years, being one term prosecuting  
attorney for Stark county, fourteen years a representative in congress, where  
he was most interested in the tariff question, and four years governor of Ohio.  
In 1896 he was elected president of the United States, being re-elected in 1900.  
at both elections by vast majorities. He was shot by an assassin while  
attending the Buffalo exposition in 1901, living but a short time afterward.

# MRS. E. FOWLS BURNS TO DEATH AS RESULT GASOLINE EXPLOSION IN VILLAGE OF BLADENSBURG

Woman Had Gone Into Cellar to Get Lunch for Little Niece—Gasoline Had Been Leaking and Explosion Occurred as She Lighted a Match.

One of the most distressing accidents ever chronicled was that which occurred at Bladensburg Saturday night when Mrs. Elizabeth Fowls, widow of the late John Fowls, and a most estimable woman, was burned to death. Mrs. Fowls' little six year old niece, Rosalie Cummins, daughter of Mr. Alonzo Cummins, who lives about half a mile east of town, had gone to spend the night with her. During the night the little girl became hungry and asked her aunt for something to eat. Mr. Fowls got up and took the child into the cellar to get something to eat. Parties who had previously occupied the house had left a five gallon can of gasoline in the cellar, which was leaking, and when Mrs. Fowls struck a match the fluid ignited and there was a terrific explosion. Mrs. Fowls was thrown across the cellar by the force of the explosion. Her clothing took fire, but notwithstanding this she still retained presence of mind to think of the safety of her little niece, and finally succeeded in getting her out of the cellar, but not until all the hair of the little child had been burned.

## ASKS FOR DIVORCE

And at Same Time Wants Hotel Partnership at Dresden, Ohio, Dissolved.

A sensation from Dresden was sprung when two suits, involving the proprietors of the Hotel Wilbur at that place, were filed. Mrs. Lucetta Davis, wife of Dudley W. Davis, is the plaintiff. She seeks first a dissolution of the partnership with John W. Thomas, by which the hotel is conducted and secondly, a divorce. According to allegations in the first mentioned case the plaintiff holds one-fourth interest in the hotel, her husband one-fourth and Thomas one-half. She alleges that Davis has been in the habit of becoming intoxicated and insisting upon helping in the management of the hotel, insulting the guests and breaking up the furniture. She sets up that she is unwilling to longer remain in this partnership, inasmuch as he has been debarred from the premises and asks that a receiver be appointed to wind up the business.

In the petition for divorce, she alleges that on July 25, Davis cursed her and threatened to shoot her, drove her and her mother from the hotel. She also charges that he has been guilty of habitual drunkenness.

## ZANESVILLE BOY KILLS HIS FATHER

SWEED ABUSING WIFE WHEN SON INTERFERES, SHOOTING MAN'S HEAD OFF.

Lad of Fifteen Then Walked to Depot and Gave Himself Up to the Officers.

Zanesville, O., July 29.—William Sweed, a 15 year old colored lad, is locked up in the city prison the self-confessed murderer of his father, Charles Sweed, aged 40. The Sweed family, consisting of a father, mother and two sons, live at Ellis Station, a small country town between here and Dresden.

Shortly after noon Sunday Charles Sweed came home in an intoxicated condition and began to punish his youngest son. Mrs. Sweed the mother, interfered, whereupon Sweed grabbed her and was choking her when the older son, William, secured his father's shotgun from another room and commanded his father to stop. The warning was not heeded and the lad pulled the trigger while at close range, shooting one side of his father's head off killing him instantly. The youthful murderer then walked half a mile to the depot, came to this city and gave himself up.

## FOR STEALING FISH.

Delaware, July 29.—Frank Ryan, who stole a two pound fish and attempted to evade the officers by boarding an interurban car, pleaded guilty to the theft before Mayor Beecher, and received a 30 day sentence in the Columbus workhouse and a fine of \$20 and costs.

The Mohammedans use the lunar year, which is 10 days and 21 hours and a few seconds shorter than ours. If money talks, talk can't be so cheap after all.

from her head and she had sustained other injuries. Mrs. Fowls who by this time was enveloped in flames ran into the garden, where she rolled in the soft earth, finally succeeding in extinguishing the flames, but not before she had been horribly burned. Every stitch of clothing had been burned from her person and her flesh from the head down had been literally cooked, in some places to the bone.

Mrs. Fowls managed to arouse some of the neighbors who hurried to her assistance, and wrapped her in blankets and also relieved the intense suffering of the woman, from whose flesh they kept as much as possible the air. A physician was called and remained with her all night, and Sunday, applying soothing lotions, but notwithstanding the fact that everything possible was done to save her life, she died Sunday night in great agony, her sufferings being most pathetic.

The funeral services were held at the Disciple church at Bladensburg Monday afternoon at 1 o'clock, conducted by the Rev. T. F. Van Voorhis, and the interment was made in the Bladensburg cemetery.

## OHIO'S GOVERNOR OUT FOR TAFT IN AN INTERVIEW

EXECUTIVE IS NOT OPPOSED TO THE RE-ELECTION OF SENATOR FORAKER.

And is Not Worried over Report That the Latter Favors Harding for Governor.

Columbus, O., July 29.—Governor Harris gave out an interview last night in which he declares for the endorsement of Secretary Taft by the Republican State Central Committee, that will meet here Tuesday, but does not desire to have it construed that he is opposed to the re-election of Senator Foraker. So far as he is concerned the Governor does not care for an endorsement at the hands of the committee, as he has not said that he would be a candidate for return to the office.

Governor Harris bases his declaration on the grounds that he believes that Secretary Taft is the choice of the majority of the Republicans of Ohio for the Presidency. While he believes that the action of the committee in making an endorsement is not binding upon the party, still he is of the opinion that the committee's action may do, merely expresses the trend of sentiment.

He adds, too, that the report that Senator Foraker is favorable to Warren G. Harding as Governor, is not disturbing him in the least.

"I favor the endorsement of Secretary Taft for the presidential nomination," said he, "because I believe that he is the choice of a majority of the Republicans of Ohio for that office."

"I have no knowledge as to what the committee will do, but I am convinced that the great body of Republican voters of Ohio want Mr. Taft as their candidate for President."

"Is this statement to be construed as placing you in opposition to Senator Foraker?" was asked.

"Not by any means," said the Governor. "When I say that I favor the endorsement of Secretary Taft it does not mean that I am opposed to the re-election of Senator Foraker. My statement applies only to the question of a presidential candidate."

"It is reported that the committee will also endorse you and Senator Foraker," it was suggested. "Will you

accept an endorsement from the committee?"

I do not want any endorsement," said Governor Harris. "I have not yet decided that I will be a candidate for re-election and until I make up my mind upon this point I do not think it is proper for any body of Republicans to give me an endorsement. Then it is too far from the end of my administration for the party to pass judgment upon it. Perhaps I may do something before the close of it that would change their minds. I am not seeking an endorsement from the Central committee, and to all my friends who have spoken to me about it I have said as much."

## TAFT RESOLUTION

Columbus, July 29.—On the day before the Republican State Central Committee meets to decide whether it shall endorse Taft for president, an atmosphere of reserve surrounds the leaders of both factions. The committee will meet at the Neil house on Tuesday afternoon. A Taft resolution will come up for consideration at 3 o'clock this afternoon.

## AFTER 55 YEARS VISITS OLD HOME

Joseph F. Poundstone, a well known business man of Newark, O., is visiting his nephew, Samuel A. Poundstone, and Albert G. Poundstone at the old homestead in German township. He is now past 80 years of age and is still as active as one much younger, and bids fair to live many years yet. Mr. Poundstone left here for the Buckeye state in 1852 and has been there ever since. He is a son of the late Mr. and Mrs. John Poundstone, who located in this country in the early part of the century and on the farm which has been in the family ever since.

Like all other visitors, Mr. Poundstone notes the many changes that have taken place in the Klondike since he left 55 years ago, although he has made a number of trips back. When he went away, the country around the old farm was largely timber land which was later converted into farming land. During the past few years mining has replaced the farming interests and now there are coke plants in almost every valley in the community. Mrs. Poundstone is still living and will soon reach her four-score years. She is also in comparatively good health for one so old. The only living brother, William S. Poundstone, lives in Missouri.

## DEATH DUE TO TUBERCULOSIS

Brownsville, July 29.—R. Gutridge a prominent farmer, of Hopewell township, passed away at his home Sunday evening at 3:15 o'clock after a lingering illness, suffering from tuberculosis.

He was aged 43 years and leaves besides a wife, two sons and three daughters, Rolland, Earl, Bessie, Hazel and Lena, all of whom reside at home.

The funeral will occur from the Presbyterian church at Fairmount on Tuesday afternoon, Rev. R. G. Bowen officiating. Interment will be made in the cemetery near by.

## SAD DEATH OF A YOUNG LADY AT BALTIMORE

Grace Darling, daughter of Mr. and Mrs. J. R. Johnson, residing at Baltimore, Liberty township, Fairfield county, passed away Sunday night at 10:10 o'clock, death being due to nervous and heart trouble.

Miss Grace was born at Baltimore and was aged 17 years. She has been ill for some time but not until Friday last did it take a serious turn.

She was highly respected and beloved by a legion of friends, all of whom will sadly miss her. Grace was still in the flower of girlhood, being but 17 years of age. She was a faithful member of the United Evangelical church at Baltimore and the services will occur there Tuesday afternoon at 2 o'clock, conducted by the pastor, Rev. G. A. Smith. Interment will be made at Basil.

The obsequies are in charge of Bowers & Criss Bros., of this city.

## WORKMAN IS CAUGHT IN A SEWER CAVE-IN

While a number of workmen employed by Frank Kinney, the contractor, were engaged in digging a deep sewer connection on North Morris street Monday morning, "Juda" Stewart, aged about 20 years, was caught by a cave-in and nearly buried alive. It required about an hour for his fellow workmen to dig him out. He was almost exhausted when rescued but soon recovered and returned to work.

## KILLED MOTHER BY AN ACCIDENT

DAUGHTER THREW EXPLODING LAMP DOWN STAIRS WHICH STRUCK HER.

Rockefeller Delinquent—Enoch Arden Case—General News of Buckeye State.

Hamilton, O., July 29.—Mrs. Charles Souls of Bunnell avenue died from burns received when her 16-year-old daughter Catherine struck her with an exploding lamp. A five-year-old son had upset the lamp. Seeing that it was about to explode, the daughter picked it up and threw it down stairs. She did not know that her mother was ascending the steps. The lamp struck the woman in the breast, setting her clothing afire.

Rockefeller Delinquent. Cleveland, O., July 29.—Although recognized as the richest man in the world, John D. Rockefeller is classed as a delinquent on the books of the county treasurer. The trouble originated when Mr. Rockefeller failed to pay \$76 due the county upon a personal return of \$3,800 worth of property at his Forest Hill estate and failed to settle the remainder of his taxes until the last day allowed.

Saved From Drowning. Sandusky, O., July 29.—Mrs. Ida May Gibson of Columbus had a narrow escape from being drowned at Cedar Point, being swept off her feet by the breakers and far out into the lake. Oel Sheets plunged into the surf and after hard work reached the woman just as she was going down for the last time and succeeded in getting her to the beach.

Danger of Dockmen's Strike. Cleveland, O., July 29.—The strike of miners in the iron mines and among the dockmen in the Lake Superior region will, if long continued, doubtless result in forcing shippers to use the railroads to transport ore to the furnaces in the Cleveland and Pittsburg districts during the coming winter when navigation is closed.

Relative of McKinley. Bucyrus, O., July 29.—Thomas McCreary, for 70 years a resident of this community, is dead at his home here, aged 84. Mr. McCreary observed his birthday anniversary only recently. He was related to the family of President McKinley.

An Enoch Arden Case. Woodsfield, O., July 29.—After an absence of 25 years Henry Keever, aged 50, has returned home from the west only to find his wife again married to Samuel Dixon, on the supposition that the first husband was dead.

Ohio Town Scorched. Gomer, O., July 29.—Only prompt relief from Lima fire department saved this place from almost total destruction by fire. The Watkins elevator and several residences burned. Loss about \$15,000.

Rounded Out a Century. Bellefontaine, O., July 29.—Stephen Dunson, aged 100 years, died at the Logan county infirmary.

## PINNED UNDER BURNING CAR WOMEN RESCUED

Postoria, O., July 29.—One man is seriously injured and three other persons had narrow escapes in an automobile accident here late Saturday night.

Arthur Buck, his wife, his sister, Miss Tullia Buck, and his brother, Ural Buck, were on their way home in Highland park, a suburb, in Mayor C. C. Anderson's car, of which Ural Buck was the chauffeur. Buck failed to see a cow that was lying across the roadway and the machine struck it broadside. The car whirled to one side and then turned turtle.

Ural Buck was hurled ten feet in the air and alighted uninjured. Arthur Buck was thrown clear of the car and alighted on his head. It was at first thought he had been killed. The women were in the tonneau and they were pinned under the car.

The headlights were furnished by kerosene and the oil quickly ignited the car. Realizing the precarious position of the women, Ural Buck, with superhuman effort, lifted the heavy car sufficiently for them to crawl out to safety. The car was destroyed by fire. Miss Buck lost a valuable diamond ring in the accident. It is thought Arthur Buck will recover.

## HAYWOOD NOT GUILTY

(Continued from page 1.)

the county in which former Governor Steuben was assassinated, sat gloomy and unspeaking in their places. Senator Borah, who had made the closing plea for conviction, was not present. Of the prisoner's counsel, those in the courtroom were Clarence Darrow of Chicago, F. F. Richardson of Denver and John F. Nugent of Boise.

No member of the prisoner's family nor any of his friends among the Socialist writers and the so-called "labor jury" who have been attending the trial was in the courtroom at the early hour the verdict was reached. The spectators' benches were empty, but in the doorway stood Governor Frank Gooding, who has taken an active part in pressing the prosecution of Haywood and his associates. There was no demonstration other than that made by the attorneys for the defense, and the court proceedings were over, the prisoner had been discharged and the jury dismissed for the term in less than three minutes' time.

Judge Wood took his place on the bench at 7:54 o'clock and four minutes later the tired, bedraggled, worn-out jurors filed in. Haywood sat with his right elbow hung over the back of his armchair, a characteristic attitude. As the clerk began to call the roll the silence in the big courtroom was painful. The came the voice of Judge Wood, asking: "Gentlemen of the jury, have you agreed upon a verdict?" Haywood turned his single eye upon the 12 men. "We have," came the response from Foreman Gess, who handed a plain white envelope to the court. Judge Wood delved into the envelope, hesitated, looked again, and then with some amazement said: "There's nothing in here."

"There's the right envelope in your coat pocket," said Juror Russell to Mr. Gess. The second envelope was handed up. Judge Wood tossed the paper to the clerk, who read: "State of Idaho against William D. Haywood: 'We, the jurors in the above entitled case, find the defendant, William D. Haywood, not guilty. Thomas B. Gess, Foreman.'"

Then came the congratulations of Haywood, in the midst of which Judge Wood said: "The defendant will be discharged and the jury dismissed for the term."

There are many in Boise who incline to the opinion that a controlling influence with the jury was their disbelief of Orchard's testimony.

Haywood received scores of telegrams of congratulation during the day from all sections of the country. Many were from individuals, and many more from labor and Socialist organizations. Eugene V. Debs was among the first to send greetings.

Haywood issued the following statement: "I appreciate the support of the working class extended to us by workmen throughout the country. I hope to be able during the coming year to personally express that appreciation. I have no ill feeling nor ill will toward any person. I am charitable toward all. My intention is to go back to Denver and take up my work where I left off when I was placed under arrest. I do appreciate the kindness and consideration with which my family has been treated by the people of Boise. I do appreciate, and in so stating express the sentiments of my companions in jail, the courtesies extended to us by Sheriff Hodgins, former Sheriff Moseley and his deputies. As to the outcome of the trial, I have never had any fear, and would have expressed yesterday the same belief I expressed when first arrested, that is, that with a fair trial and an impartial jury the verdict would be such as has been given to the country. Senator Borah treated me most fairly, and I appreciate it. Judge Wood was eminently fair to me, and I have extended to him my thanks for his treatment of me during the ordeal of this trial."

## MOTIONS FOR BAIL.

Boise, July 29.—When Judge Wood opened court today, attorneys for Moyer and Pettibone, still in jail awaiting trial for complicity in the murder of ex-Governor Steuben, for which Haywood has been acquitted, filed motions asking that their clients be released upon bail. An agreement between the attorneys was finally reached that Moyer should be released on \$25,000 bond within 24 hours. The release of Pettibone is still pending. The court gave the attorneys until 2 o'clock to reach an agreement. Senator Borah says he thinks the lawyers will agree. The state particularly opposes the release of Pettibone, contending that its case against Pettibone is very strong. The defense claims the acquittal of Haywood knocks the conspiracy "galley west," and says that no judge would let the case go to a jury upon the evidence now at hand. The defense is prepared to furnish bail for Pettibone upon \$100,000.

Haywood has been spending this, his first full day of liberty, visiting his invalid mother at the hospital, and at the bedside of Attorney Murphy, the Federation's lawyer, who is dying of consumption, and with his family. He attended today's court session and is working for the freedom of his associates.

## BOOK BY NEWARK AUTHOR.

Editor of the Advocate—A book has recently come to my table which I have just finished reading that deserves more than passing notice. It bears the modest title, "An Autobiographical Sketch of Mrs. Ellen S. O'Bannon," who is now spending the evening of life at her residence on West Locust street, this city. The book might well be called "A History of the Social and Religious Life of Newark and Madison Township."

The sketch is dedicated "To the children, grandchildren and great-grandchildren of the author," but may be profitably read by a much wider circle. With quaint simplicity, yet graphically, she describes her birthplace, a village called Henly on the Thames, not far from the great city, London, England.

Being of a deeply religious nature, Mrs. O'Bannon very naturally gives much space in her book to her religious training, which began with her earliest recollection under the care of her mother and grandmother, who were as faithful to her as were Eunice and Lois to Timothy. Early impressions are fadeless, hence Mrs. O'Bannon is still found in attendance upon the Sunday school, which she prizes above all other means of grace for soul culture. At the age of 16 years Mrs. O'Bannon with her parents, emigrated to this country and settled on a farm five miles east of this city. On the twenty-third of March, 1841, she was married to Mr. O'Bannon, that being her 17th birthday. Much space is devoted to the social and religious life of the Bowling Green community. The older residents of that vicinity will be delighted with the amusing incidents herein related. The two prominent institutions which are central in the

story are the Madison Township Farmers' Club and the Bowling Green Methodist Episcopal church. In 1876 the author becomes a resident of the city of Newark, and at once actively identifies herself with the Methodist Episcopal church. Many incidents of much interest are related in the book which have to do with the various pastors of that flock. Names of all the ministers who have been pastors of the author appear in succession: James Hill, John T. Miller, O. J. Nave, J. H. Gardner, L. L. Magee, C. C. Elson, Arthur E. Johnson and the present pastor. Much of the local history of this church is herein delineated and is of permanent value. I have been mentally refreshed and edified in perusing the story. I cordially commend to all in any way interested.
